Bradley's HEATING FORGES

Established 1832

Pat. Aug. 30, 1887

With a manufacturing experience of over half a century, we recommend these machines to be the best, simplest, most durable and combining all the essential elements.

For hard coal or coke. Indispensable in all shops to keep **Bradley's Cushioned Hammers** and men fully employed and reduces cost of production.

BRADLEY & CO., Syracuse, N. Y.

BRADLEY'S UPRIGHT CUSHIONED HELVE HAMMER

established 1882.

Combines all the best elements essential in a first-class Hammer. Has more good points, does more and better work and costs less for repairs than any other **Hammer** in the **World.**

BRADLEY & CO. Syracuse, N.Y.

GATE CITY STONE FILTER CO.,

46 Murray St., New York.

☞ Fine China and Gray Stone-ware Jars to hold the Water.

☞ A NATURAL STONE for a Filtering Medium.

☞ Fitted with separate Patent Ice Chambers to cool the water.

☞ As easily cleaned as a Water Pitcher.

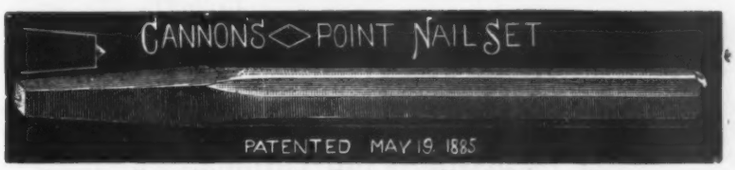
☞ No objectionable material used in the construction of this Filter

All water is filled with impurities during the rainy season.

☞ This Filter will ABSOLUTELY CLEAN IT

Address as above for Descriptive Price List. Mention *The Iron Age.*

Open Cut shows Filter Disc used in our Filters, and Separate Patent Ice Chamber.



Cannon's Diamond Point Nail Sets have now been on the market long enough to prove true the many merits we claim for them, and they are to-day the best known, the most largely used, and universally popular Nail Set ever made. They can be bought from all Jobbers in Hardware in the United States, and are also sold in Canada, England, Germany, Australia, New Zealand and Mexico. For catalogue and price address the manufacturers,

WEST'S MOULDERS' TEXT BOOK

BEING PART II. OF AMERICAN FOUNDRY PRACTICE,

Giving the best methods and rules for obtaining good castings, with detailed description for making moulds. A thoroughly practical book that should be in the hands of every moulder.

PRICE, - Cloth, - 460 Pages, - - $2.50.

Sent, post-paid, on receipt of price by

DAVID WILLIAMS, Bookseller and Pulisher, 66 and 68 Duane St., New York.

A MAN OF SAMPLES.

Something About the Men he Met "On The Road."

BY WM. H. MAHER.

Should be read by every business man in the country.

It is a book full of keen points about business men and business methods, from the pen of a successful merchant who has not only been "on the road" but has been book-keeper, buyer and head of a house doing a large trade.

The merchant who stays at home can see how men work on the road.

The book-keeper can learn how his letters and drafts are looked upon by the men he writes to.

The stock clerk can get some points about shipping goods and filling orders.

Those who advertise can learn from one of the best advertisers in the United States.

Actual names of men and houses are given, but not a line in the book has been paid for in any way.

If men were complimented, it was because the author felt that they deserved it, and others are condemned fearlessly.

IT IS A BRAINY BOOK.

Sent, postpaid, on receipt of the price, 75 cents, by

DAVID WILLIAMS,

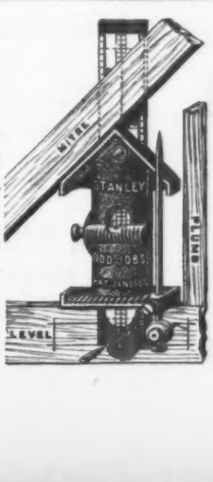
66 and 68 Duane Street New York

This Tool embraces in itself and in combination with an ordinary Carpenters' Rule:

(1) Try Square.
(2) Mitre Square.
(3) T——Square.
(4) Marking Gauge.
(5) Mortise Gauge.
(6) Depth Gauge.
(7) Mitre Level.
(8) Spirit Level and Plumb.
(9) Beam Compass.
(10) Inside Square for making boxes and frames.

STANLEY
Rule & Level Co.
NEW BRITAIN, CONN.

SOLD BY ALL
Hardware Dealers.



Stanley's "Odd-Jobs."

Attach the Tool to a Rule, making a try-square, or a T-square with long or short tongue; also, a right or left hand mitre-square. The pointed steel rod is a scratch-awl.

A marking gauge is made by setting the point, or pencil, at any required distance from the square end of the stock. A mortise-gauge, also, by inserting an additional point, or pencil, in the angle at head of the Rule. A graduated depth-gauge is furnished by extending the Rule down from the square end of the stock.

The steel point at mitred end of the tool forms a center, from which a circle can be swung, (as with a beam compass) 1 1-2 to 13 inches in diameter. For small circles, reverse the steel rod, to bring the pencil nearer the center-point.

A circle of 25 inches diameter can be swung, if the Rule alone is used, with a pencil in the angle at its head.

No. 1. Odd-Jobs, Nickel Plated, with Level, $0.75

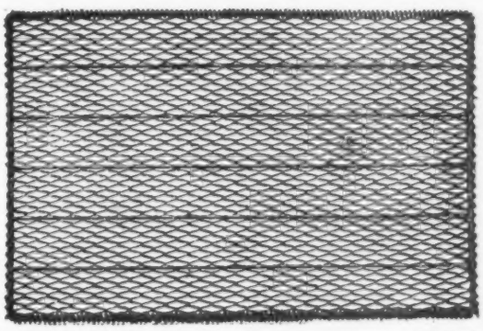
A. W. PARMELEE, Pres't. THE WIRE GOODS CO., WORCESTER, MASS.

The "FLEXIBLE" Steel Wire Mat.



This mat has heretofore been made by THE FLEXIBLE WIRE MAT COMPANIES of Chicago and Cincinnati, and was formerly known as the Stover Mat, proving itself a formidable competitor for public favor. The coil in body of fabric is flattened, thus giving an *increased scraping surface*, and is thoroughly supported by spring steel strips and braces passing from end to end. The close coils at each end render it sufficiently flexible to conform to uneven surfaces, and it is adapted to any place where a mat is required. This is our lowest priced mat, but it will be found entirely satisfactory, and is prefered by some to the other style.

Curtis' Automatic Return Steam Trap.

For draining the condensation automatically, direct back to Boilers from Heating Coils, Steam Radiators, Drying Pipes, Evaporating Pans, Paper Dryers, &c., whether above or below the water level of Boiler. The recent modifications and improvements on this well-known Return Steam Trap places it in the front rank for simplicity and positive duty. It occupies very little space, and can be placed where other traps would not operate. *The parts are easily accessible and can be disconnected for examination without disturbing any of the pipes or removing the Trap from its position above the Boiler.* The operation of the Trap is as follows: A Receiver is placed below the lowest heating coil and discharges its whole contents of water into the Trap, which, when full, operates the Steam Valve, by the rising of the float inside, admitting full boiler pressure on the surface of water in the Trap. A Check Valve placed on inlet pipe prevents the water returning to the receiver, and as the Trap is elevated above the water level, it discharges its contents by gravity direct in the water space of Boiler, and as the float recedes with the water discharged, it again operates the Steam Valve, and shuts off the steam pressure, while at the same time the remaining steam pressure left in the Trap immediately passes out through lower opening in valve, and the Trap is again ready for filling from Receiver.

The main advantage of this return trap must not be overlooked—which is that, as there is no other outlet from the condensing surface, there can be no waste of steam or water. It must all go back into the boiler; and, further, as this return is pure, distilled water, at a *very high temperature*, it is in the most perfect condition to benefit the boiler.

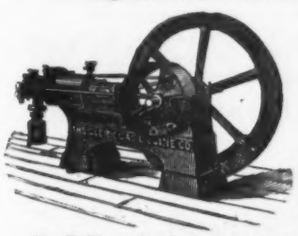
THE CLERK GAS ENGINE.

Highest Award for Gas Engines at American Institute Fair, New York, 1883.



Makes an ignition at every revolution of the Fly Wheel. Is started with ease, and gives full power immediately. No danger from fire; no extra insurance nor skilled engineer required. Runs perfectly steady; only uses gas when required. Workmanship of the best description and guaranteed. Indicated power considerably larger than in any other Gas Engine of the same size, each Engine giving from 1 H.-P. to 4 H.-P. more than named. Is unsurpassed by any other Gas Engine for running any kind of machinery or electric light, arc or incandescent. Has means for regulating to suit any coal or water gas.

No Boiler, Coal, Ashes or Engineer. Made in Sizes of 4, 8, 10, 15 and 25 H.-P.

THE CLERK GAS ENGINE CO., 1012-1016 Filbert St., Philadelphia.

Branch Offices: 142 Chambers St., New York; 4 West 14th St., New York; 76 Dearborn St., Chicago.

LOCKPORT IMPROVED WAGON JACK

The Neatest, Lightest, Strongest, Most Compact and Cheapest Wagon Jack now in the Market.

MADE ENTIRELY OF METAL, EXCEPT THE HANDLE. THE TUBE IS WROUGHT IRON PIPE; THE LIFTING-ROD STEEL, AND THE CASTINGS GREY IRON. THE STEEL LIFTING-ROD IS ADJUSTABLE IN HEIGHT AND IS HELD BY A FRICTION CLUTCH, OPERATED BY A POWERFUL COMPOUND LEVER.

In Size, General Appearance, and Ease of Operation, in Comparison with its Power IT IS UNEQUALED.

HIGH-SPEED POWER TRAVELING CRANES.

We are now prepared to build **High-Speed Power Traveling Cranes** for any capacity of load, any length of runway and any width of span, with one or with two trolleys on the bridge, these trolleys to work either slow or fast, together or independently, in like or in opposite directions, horizontally or vertically, while the bridge can be traversing slow or fast at the same time in either direction. The speeds of bridge on runway are 100 *feet and* 200 *feet per minute;* the speeds of trolleys on bridge are 50 *feet and* 100 *feet per minute;* and there are four hoisting speeds of 5, 10, 20 *and* 40 *feet per minute;* all can be varied quickly without the least shock or jar from zero to maximum or to any intermediate speed. *The load is always automatically sustained, thus avoiding absolutely the great danger and anxiety which are inseparable from the use of those cranes which require the operator to apply the brake.* We have had one of these Cranes of 26 tons capacity in constant use in our foundry for nearly two years, and we offer them with full confidence for the greatest range of service. We invite the correspondence of parties interested in the subject. WM. SELLERS & CO., Incorporated,

July, 1887. Philadelphia, Pa.

BELDEN'S
Upright Power Hammer.

This Hammer possesses advantages superior to any other in the market. Is has neither cylinders, valves nor piston rods, consequently repairs are trifling. It takes up little space, less power to drive, strikes much harder and truer blows than hammers with double the weight of ram.
It can be worked to strike good alternate blows on a 3-inch and ¾-inch bar when a 100-pound hammer is used, and can be used on die work to a far greater advantage than any other hammer known. Manufactured by the

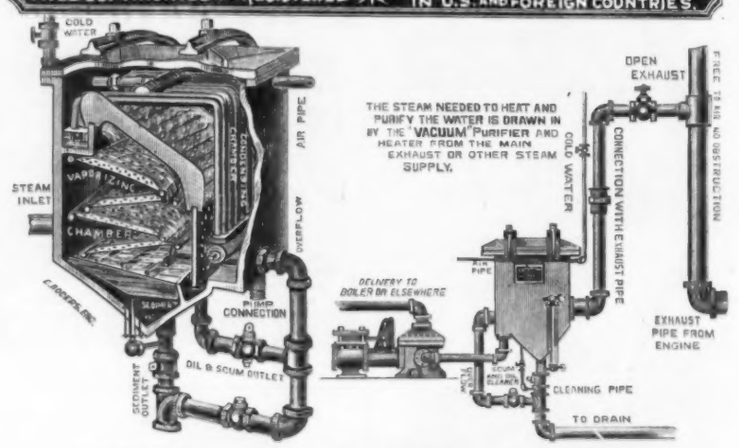
"WEBSTER'S" VACUUM FEED WATER HEATER & PURIFIER
TITLE COPYRIGHTED AND REGISTERED — PATENTS PENDING IN U.S. AND FOREIGN COUNTRIES.



OPERATES BELOW ATMOSPHERIC PRESSURE,

converting the water to be purified into vapors, and reconverting the vapors back into a liquid state, by the water next entering to be purified, preventing any loss of heat units.

FEEDS PURIFIED WATER TO THE BOILER AT A TEMPERATURE AT OR JUST BELOW THE POINT OF VAPORIZATION, **Preventing Scale, Removing Back Pressure, Increasing Power and Steam. Saving Coal, Water, Labor and Space.**

Can be placed in any position either near by or at any distance from the exhaust.

WEBSTER'S "VACUUM"

Feed Water Heater and Purifier

has received the endorsement and approval of the highest mechanical engineering talent as being thoroughly adapted to the purposes for which it is being introduced.

Duplicate orders have already been received from such well-known firms as the Phœnix Iron Company, Phœnixville, Pa.; Pencoyd Iron Works, Pencoyd, Pa., and New Jersey Steel and Iron Company, Trenton, N. J.

Among others now using **Webster's "Vacuum" Feed Water Heater and Purifier,** to all of whom we refer, we mention Edison Electric Illuminating Co., Lancaster, Pa.; Wissahickon Electric Light Co., Wissahickon, Pa.; Gloucester Electric Light Co., Gloucester, N. J.; Moore & White's Machine Works, Philadelphia; Welde & Thomas Brewery, Philadelphia; Eigenbrats' Brewery, Baltimore; Wm. P. Keeley & Sons' Planing Mill, Phœnixville; Abram Cox Stove Company, Philadelphia, and J. R. Daggers' Roswell Bobbin and Spool Manufactory, Paterson, N. J.

DESCRIPTIVE PAMPHLET FOR FURTHER INFORMATION.

☞ We respectfully solicit your order, subject to 30 days' trial, if accepted, to be paid for.

WARREN. WEBSTER & CO.,
PROPRIETORS AND MANUFACTURERS,
No. 491 North Third Street, - - Philadelphia, Pa.

Made from Best Norway Iron. Regular sizes black and tinned Rivets and Burrs always in stock. Particular attention to orders for special Rivets made to sample from Copper, Iron or Brass. Blanks for small Bolts, Screws, &c., made to order.

HUGUNIN "SCREW SASH BALANCES."

Positive Dual Mechanism, Roller and Cam.

Reliable, inexpensive, mechanical substitutes for Weights. Easily applied *and repaired* by any one, ensuring permanence. No attachment to the sash or ribbons used to kink and break or clock springs to rust out and set and throw away. *They are applied to the frame* and work against the unpainted edges of the sash. Prevent rattling and allow the sash to be easily removed for cleaning &c. Prices, small ¾x1¼, 60c. per set of 4; Medium, 1⅛x4⅛, 70c. per set of 4; Large, 1⅛x4⅛, 80c. per set of 4. Sample sets mailed on receipt of 80c. or $1.00, according to size. Cost applied, less than the additional cost of boxed over the plain frame. Just what is wanted for buildings having no facilities for weights. The latest improved being greatly strengthened, and benefited in their workings are warranted equal to weights for medium or lighter sash, under 20lbs each sash. Beware of a poorly made *fraud imitation of old screw balance* using the date Nov. 6th, 1877 *a date never used on the genuine*, and *offered on the sly*. Many who have been swindled are replacing with the *genuine*, which have "*Robt. B. Hugunin, Patentee and Solely Authorized Maker*," cast upon them, and by which the *genuine* are instantly known. Spot the *fraud and those who offer you them*, and save future trouble *from infringement*. Get the "*1888 Improved Hugunin Patent Screw Balances*," the only reliable positive power outside of weights for balancing the weight of sash. If not kept by your dealer, order yourself direct from ROB'T B. HUGUNIN W. F. MFG. CO., Hartford, Conn.

SIX SPINDLE

AUTOMATIC DRILL PRESS.

This Machine is especially designed for the use of manufacturers of Light Hardware. It drills holes to ⅝ inch in diameter. Each spindle is entirely independent and may be stopped to change or sharpen the drill without stopping the machine or interfering with the other drills. The feed is automatic, can be set to feed any depth of hole, and when through its work is released and the drill returns to its place ready for the operator to change the work and start it again. Address

The Hendey Machine Co.,

TORRINGTON, CONN.

FRANK McSWEGAN & SONS,
Bridge Store, Dover St. and Franklin Sq., New York.

COIL-BOILERS FOR THE UNITED STATES NAVY.—NAVY DEPARTMENT, Washington, D. C., August 2, 1888.—The Navy Department, having in view the possible decrease in weight of machinery in vessels of war by the use of tubulous, sectional or coil-boilers, has determined to adopt such boilers, if suitable can be found, for a portion of the steam-power of one or more of the vessels about to be built. To this end manufacturers who wish to offer such boilers for use by the Department are hereby invited to furnish plans of the same, adapted to an armored coast-defence vessel, on or before September 15, 1888. Plans must be accompanied by certificates that boilers of the same make are or have been in successful use at sea or on shore. Plans showing the space in the vessel available for boilers, particulars of the duty required and other information, may be obtained upon application to the Bureau of Steam Engineering. The boiler which appears to the Department, after investigation, to be the best for the purpose, taking into account the evaporative efficiency, the dryness of the steam, the weight of the boiler, the weight of the water contained, the accessibility for repairs, the ease of making repairs, the simplicity and interchangeability of the parts, the space occupied, the ease of firing and of regulating the feed, the suitability for working in battery, the capability of long-continued steaming without cleaning, and the durability, will be adopted in the coast-defense vessel above mentioned, provided that the price, which must be stated when the plans are submitted, is satisfactory to the Navy Department. Such boilers as appear to possess merit will be tested by the Navy Department, if the manufacturers so desire, to determine which is the more suitable for the purpose. Manufacturers who wish their boilers to be tested must furnish a boiler of the type of one of those proposed for the vessel and prepare it for test, either at their own works or at such place as may be arranged with the Department. The expense of the test of the accepted boiler will be borne by the Navy Department, and the cost of the fuel used in the test of the second best will also be borne by the Navy Department. All other tests must be at the expense of the parties offering boilers for competition.

WILLIAM C. WHITNEY,
Secretary of the Navy.

FOR SALE, CHEAP, Wire Machines. —6 second-hand Wire Nail Machines. 2 Rattlers or Polishers, 1 Emery Wheel, stand and wheels complete; 1 Engine Lathe, nearly new, for making dyes, and in first-class condition. Valuable Manufacturing Property

FOR SALE.

The real estate and buildings now occupied by the Watertown Steam Engine Co., of Watertown, N. Y., will be offered for sale. The property covers about four acres; has an unfailing water power on the Black River estimated at 225 h.-p. Consists of machine shop, foundry, boiler shop, blacksmith shop, store houses and tenements. The buildings are equipped with line shafting, and could be adapted to a large variety of manufacturing purposes. Moderate cost of labor, combined with low freight rates and nearness to raw material, with an abundant water power, make Watertown an exceptionally good point for manufacturing. It is essentially a manufacturing town.

The property can be divided and sold in parcels if desired,

Auction Sale of Machinery, &c.,

ILION, N. Y.

The undersigned, receivers of E. Remington & Sons, will sell at public auction, at the Canal Warehouse, on Friday, September 14, 1888, commencing at 1 o'clock P. M., a lot of valuable machinery, consisting in part of 5 and 10 arc light dynamos, Remington system, all new and first-class, trip hammer, sturtevant and other fan blowers, bayonet rolling and finishing machines, gun and pistol barrel drilling, turning, boring, rifling, polishing and leading, circle, face, clamp and other milling machines, drill presses, wood planers, &c., comprising about eighty pieces, many of which are new and first class. Also together with other miscellaneous articles, including farming implements, the fine show case or booth used for displaying the Remington manufactures at the New Orleans and St. Louis Expositions. This is tastefully and elaborately designed, made in sections, and packed in convenient cases for shipment. The sale will include such of the property described in our circular list of July 10th, as shall remain unsold at date of sale.

AN EXCELLENT OPPORTUNITY.

A Profitable Scrap Iron, Rag and Metal Business for Sale or Partner Wanted.

The rag, iron and metal business sucessfully conducted by S Simons & Son since 1870 at Detroit, Mich. Owing to the death of Mr. S. Simons and the inability of the surviving partner to give the necessary attention, this offer is made. The property used for that business consists of large yard Nos 365 to 371 Atwater St., having best R. R. facilities, a massive four-story stone and brick building and other buildings and everything necessary to conduct the business, constituting the best equipped plant in the country for that business, together with the good will of a large established trade. Will be sold for the lowest value of the property, or a suitable partner, a smart business man having a good reputation and knowledge of the business, will be accepted. For particulars address to

S. SIMONS & SON, Detroit, Mich.

Pederson's Patent Ratchet Brace.

Southern Agents,
HOEN & VON KAPFF,
Baltimore, Md.

We have received orders so far ahead of our highest expectations (especially for the Pederson Ratchet Brace) that we have no doubt unavoidably caused many of our patrons serious inconvenience by being unable to give them the prompt attention we so much wish to bestow. We have, however, this week purchased several duplicate machines, which will now give us an enormous producing capacity, and enable us very soon to complete all of our orders. We trust that those who have kindly favored us with their patronage will bear with us a little while longer; and we can assure them that they will be abundantly paid for waiting. As we expect, from every indication, to be crowded to our utmost for months to come, we solicit orders *in advance*, which, of course, will receive first attention, at the time desired.

We are, very respectfully,

NEW CHAMPION FORCE PUMP

HAS

Vacuum Chamber and Air Chamber,

Producing a continuous flow of water, both in suction and discharge. Works smoother and easier than any other force pump in the market. Has Seamless Drawn Brass Cylinders and no stuffing boxes. Never freezes in winter, and is not liable to get out of order. With Hose Attachment it is valuable as a fire protection, and for sprinkling lawns, gardens, &c. It is specially adapted for all kinds of wells—dug, drilled or driven—and for pumping water long distances from springs.

CLARK'S IMPROVED

Ratchet Stocks, Dies & Pipe Vises

FOR USE BY

Plumbers, Gas Fitters and Pump Dealers.

With the Ratchet Stock pipe can be threaded in a corner, down in wells, or in positions that would be inaccessible with other tools.

Bucket Pump and Water Purifier.

FOR WELLS AND CISTERNS OF ANY DEPTH.

Warranted to purify a foul well or cistern in ten days' use. Does not freeze. It has no wooden tubing to wear out, decay and pollute the water; no iron tubing to rust; no suckers or valves to wear out; never has to be *primed, packed or thawed out;* has no *Leather, Rubber* or wood in contact with the water to contaminate it, and you do not have to pump out a pailful of water to get a *fresh, cool drink*, for every cup goes down full of air to the bottom and fills with cold water as the air escapes. A sample pump will be sent to any responsible dealer on 30 days' trial and if not satisfactory in every particular, and found superior to any pump on earth for domestic use, may be returned at our expense. Awarded *gold medal at World's Exposition*, New Orleans, and highest premiums at Alabama State Fair, St. Louis, Columbus, Iowa, Arkansas, Dayton, Omaha, Macon, Mobile and Cincinnati. An energetic dealer wanted in every town. For terms and discounts address

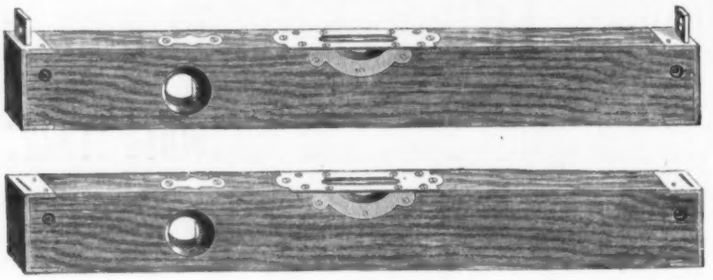
WOOD'S PATENT EXTENSION PLUMB AND LEVEL.



Patented June 14, 1887.

This Level is provided with Sights, by which the use of the Level-Board is superseded and greater accuracy secured. It is good for any distance the eye can see, and is **always ready for use.** When not in use the sights are depressed flush with the surface of the level, and are brought into position by pressing the buttons in the side of the stock.

PRICES.

No. 1, High Polished Cherry, Brass Lipped, Brass Tipped, assorted, 18 to 28, ½ doz. in a case, 1-18, 1-24, 2-26, 2-28 per doz., $24 00

No. 1½, High Polished Cherry, Brass Lipped, Brass Tipped, assorted, 24 to 30, ½ doz. in a case, 1-24, 2-26, 2-28, 1-30, - - - - per doz., 24 00

No. 11, High Polished Mahogany, Brass Lipped, Brass Tipped, assorted, ½ doz. in a case, 1-24, 2-26, 3-28, per doz., $42 00

No. 21, High Polished Rosewood, triple stock, Brass Lipped, Brass Tipped, assorted, ½ doz. in case, 1-24, 2-26, 3-28, - - - - per doz., 54 00

This ingenious device greatly enlarges the scope and value of the Plumb and Level. Given a solid base, which may be a bench, empty box, keg, or in the open air a rock, post, wall or tripod, and with a stick and pencil to mark it at the different locations sought; it may be used to level floors, ceilings, shafting in a mill or factory, foundation walls, or the tops of different gables or chimneys. Out of doors it will be found serviceable for ordinary surveying, for ditching, laying pipe, drains, sewers, mill dams and a great variety of work.

MANUFACTURED BY

SENECA FALLS MFG. CO., 255 Water St. Seneca Falls, N. Y.

The Eureka Spiral Screw Driver.

The screw is driven by pushing on the end of the handle. Made in two sizes. No. 1 $1.25 and No. 2 $1.50. Sold by C. E. JENNINGS & CO., New York, and all hardware houses in the country.

Owned and manufactured by the DECATUR COFFIN CO., Decatur, Ills.

By this machine the operator is enabled to use a two-inch auger with the same effort required in using a one and one-half inch in any other machine, and for the small auger have a speed two and one-half times faster. Two augers may be kept in the machine, to use either of which it is only necessary to point it downward by first raising the gear frame out of main frame, inverting and replacing it. The "Boss" reduces the speed of the large auger and increases that of the small one, thus properly equalizing the power required to do the work. The "Boss" is, without doubt, the only practical boring machine in the market. It has the improvements possessed by other machines and many beside. The auger will cease to bore at any required depth, clear the chips from the hole, bore at any angle, fold up compactly for placing in tool chest, and everything is firm and solid. There are no springs or shifting gear to get out of order. For sale by

POLICE CHAIN TWISTERS OR NIPPERS.

Under Patent granted to A. P. Baldwin, July 7, 1874.

The attention of the Hardware Trade is called to the decision rendered in my favor in U. S. Circuit Court, So. Dist. of N. Y., Baldwin *vs* J. G. Conway Co., Limited, *et als.*, wherein I prosecuted the defendants for selling Police Chain Twisters or Nippers, manufactured by Bean, of Boston, which are proved to be an infringement on my patent. We therefore warn the Trade and public generally against selling or using such Police Chain Nippers or Twisters, or any others, except those made by Jos. Baldwin & Co., and the improved patterns made by us exclusively for Tower & Lyon, N. Y., who have always respected our claims, and by whom our Police Chain Twisters are kept for sale. All such are stamped with our name or initials. All others are infringements. **JOS. BALDWIN & CO., Newark, N.J.**

PETERS' CARTRIDGES.

THE PERFECTION OF SHOT GUN AMMUNITION.

Loaded by the most rapid, accurate and scientific cartridge loader in existence. Capacity of each machine 4000 per hour: run by steam, entirely automatic The elastic wool felt cut several sizes large render the keeping of extra cartridges for **Smith, LeFevre and Parker Guns** unnecessary. The charge being fastened by the Peters Patent indentation give **greatly improved Pattern and Penetration** with **light recoil,** and leaves **the gun clean. The results are wonderfully uniform.** Ask for Price List and Discounts. For sale everywhere.

Made of Best Scrap Iron!

THE BICK FACE AND END ALL IN ONE SOLID PIECE!

The high reputation attained by these Anvils has led makers of an inferior anvil to imitate the brand, with the view of thereby more readily marketing their goods. The trade is cautioned in buying to see that each anvil is stamped with the full trade mark on one side and has the green label affixed to the other; fac-similes of both are shown above.

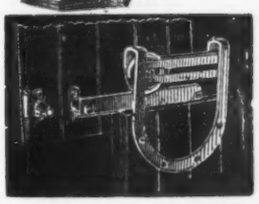
THE SWIFT MILL.

ESTABLISHED 1845.

The annexed cut shows one of the many styles of Coffee Mills of our manufacture, especially adapted to Grocers' use and all retailers of coffee. They are highly ornamental, and workmanship of the very best. We make more than 30 styles.

Lane's Measuring Faucet.



LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made ofsteel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

MANUFACTURERS OF FINE DOOR KNOBS,

No. 169 HIGH STREET,

GEO. F. WHITING, (FORT HILL SQUARE.)
President and Manager.

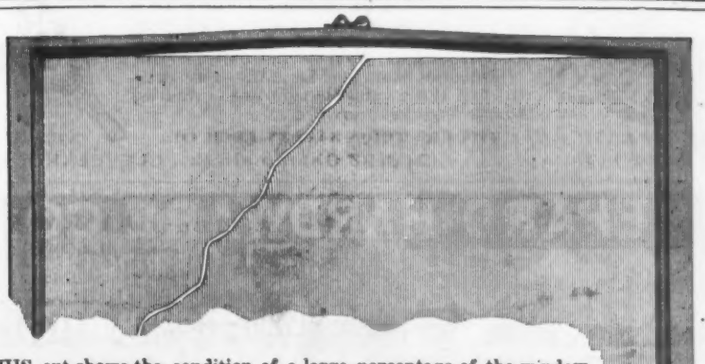
THE peculiar qualities of the Knobs made by the Boston Knob Company are, their great *strength*, *beauty* and *durability*.

Unlike all others, they improve in appearance, while bronze, brass or wooden knobs commence to depreciate as soon as used. The Knobs manufactured by this Company do not require cleaning or polishing.

They are furnished in a variety of colors to harmonize with the finish or decoration of rooms.

They are warranted to wear as long as any knob made. This Company use the *New Boston Spindle*.

Send to the office of the Company for prices, or to any leading wholesale hardware dealer.



THIS cut shows the condition of a large percentage of the window having one-light sashes. It is caused by pushing on and consequently springing the meeting rails when raising or lowering the windows, and results in ultimately cracking the glass, thus entailing an expense for repairs greater than the cost of applying Wigger's Patent Sash Lifters. These Sash Lifters obviate this trouble and also prove a great convenience in operating this class of windows, as previously described in the columns of *The Iron Age*.

The steadily increasing demand for these goods proves their utility, and also that both Architects and their Clients appreciate their merits, and that many Architects have specified them on buildings to be completed this fall. We shall be pleased, therefore, to send samples, sample cards and circulars (with blank space for dealers' name), on application, as the goods will be supplied exclusively through the Builders' Hardware Trade.

TO THE JOBBING TRADE.

ROMEO, MICH., July 31st, 1888.

The undersigned have this day sold to THE TAYLOR & BOGGIS FOUNDRY COMPANY, of Cleveland, O., THE KIDDER SLIDE DOOR HANGER PATENT, Patterns and Good Will of the business, and while thanking you for the liberal patronage extended to us, we would ask for our successors a continuance of same.

We do this knowing you will be promptly and satisfactorily served, as our successors have made all the goods we have sold for the past seven years.

Yours Truly,

THE KIDDER SLIDE DOOR HANGER CO.

GENTLEMEN:

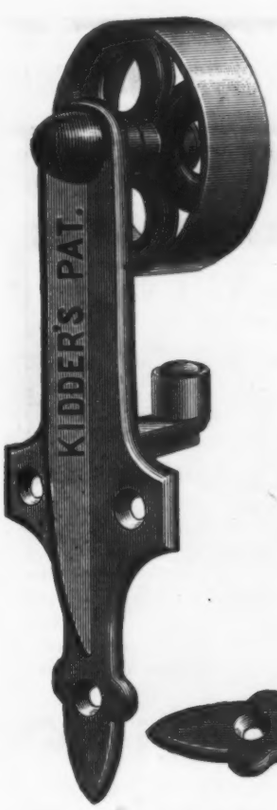
In pursuance of the above "we make our bow" as the sole manufacturers of, and would solicit your early and liberal orders for, the KIDDER SLIDE DOOR HANGER.

We shall keep constantly on hand a large stock of both sizes, that orders may be promptly filled, and shall endeavor by quality of goods and fair dealing to secure you as *regular* customers, and induce you to keep these goods constantly in stock. See our other ad., page 22.

Yours Respectfully,

THE TAYLOR & BOGGIS FOUNDRY CO.,

65 Central Way, Cleveland, O.



Champion 6-Lever Self-Locking Brass Padlocks.

The **CHAMPION 6-LEVER PADLOCKS** are now cast of a hard *gun metal*, much more durable than bronze. These are *the only padlocks* of which *the keys all differ*. Two nickel-plated steel keys with each. For security they excel all competitors. At current prices they are much the cheapest fine padlocks in this market. The springs are of phos-bronze, not rusted by salt water nor weakened by any climate.

Price List Champion Six-Lever Padlocks.

Shown full Size in Cuts.

No. 10.—See cut, has 10-inch *tinned* iron chain	per doz.	$14.00

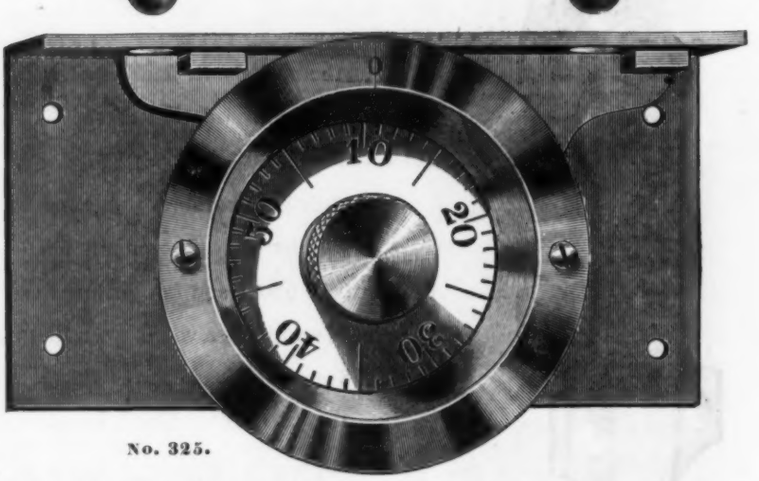
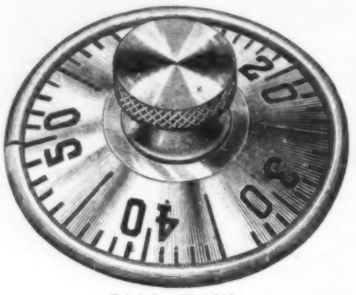
Cut shows Nos. 300 and 302 full size.



No. 325.



Dial for No. 302.

The Champion Keyless Locks require less time to open and afford *greater security* than any other Keyless Locks yet made for wood work. The highest medal of the Adelaide International Exhibition has been awarded the manufacturers. These locks are simple, *more durable* than a keyed lock and are coming largely into use on drawers, closets, lockers, carpenters' chests, &c. Their combinations are essentially different, while an ample number of changes can be made by the owner without removing the lock.

	Size of Case.	*For Wood.*	*Drop.*	*Price each.*

THE GIANT PAD LOCK.

Centennial Award. "Superior in Every Respect.

This is one of the best selling locks in the market, and affords the dealer a large profit. It is thoroughly and strongly made—of the best material—very handsome in appearance, and every Lock is warranted. Orders solicited.

THE GIANT METAL SASH CHAIN

is a substitute for cord in hanging weights to windows. It is manufactured by us only, and by automatic machinery, patented and owned exclusively by ourselves, and whereby we secure uniformity of construction and quality. We have been to great expense in producing a metal having all the qualities and conditions requisite for making suitable chain for this purpose, and to prevent other chain of the same pattern of link and of the same general appearance, but made from an inferior metal, being offered as the same thing, we patented the word "Giant" as a Trade-Mark, as applied to either metal or chain. Trade-Mark Registered April 16, 1878, and October 22, 1878, and our metal is therefore known in the market as "Giant Metal," and our chain as "Giant Metal Sash Chain."

QUINCY METAL WHEEL CO., Quincy, Ill.

Warning to the Trade Against a Dangerous Device.

Experience has taught the trade and the consumer that only a *safe* and *reliable* Horse and Cattle Tie is desirable and that the *fatal danger* of the *loop shirring* up and *choking the animal* is the *great fault* to be *guarded against.* This has been fully accomplished by the *Covert Patent Thimble*, which has a screw with a centrally located eye and a *point* which *passes through the rope* and renders all *slipping* or *shirring impossible.*

At the time the *Covert* Thimble was placed upon the market the only thimbles then being sold were the *Wiard Socket Patent* and the Sargent-Hull Thimble.

To both of these great objections were made, on account of their liability to shirr and choke the animal, and as soon as the Covert Thimble appeared on the market the *sales of the others rapidly decreased* and in a *few years ceased entirely.* At this juncture Sargent & Co., of New York and New Haven, placed upon the market a thimble which was a *direct infringement* upon the Covert Patent.

Their course in the matter has been fully exposed in our Bulletins and the Trade Journals, and is well-known to the trade.

After suffering considerable damage and loss through their infringements several suits were commenced against the infringers in the United States Court, one of which was on thimbles, and a decree was entered against Sargent & Co. sustaining the validity of the Covert patent and granting a perpetual injunction against the infringers.

To avoid the decree and the consequences they would suffer should they disobey it, they began the manufacture of a *thimble without the point of the screw* or pin, in this respect going back to the *old, obsolete, worthless design of the "Wiard Socket."*

That a thimble *without the penetrating point* is acknoledged to be *dangerous* and *worthless* is proven by the *testimony taken in the suit* above referred to, from which we quote the substance, as follows:

Witness Hull testified as to the *worthlessness* of the *Wiard Socket.*

Witness Turner testified that the firm by whom he was employed had not purchased the Wiard Socket for ten years and had not purchased the Sargent-Hull Cattle Tie Iron for 12 years, that the Covert Thimble which was considered better and more practical, displaced such goods.

Witness Byrne testified that his firm had not bought the *Wiard Socket* for over ten years because they were *unsalable.* That they carried some of the "Wiard Sockets and Screws" in stock for years because *they could not sell them.* He also testified that he heard objections made to the use of the "Wiard Socket and Screw" on Cattle Ties, that they *would slip* on account of the *end of the screw being blunt*, and that the customers and users of horse and cattle ties, and the trade generally made such objections, that he did not think the "Wiard Socket and Screw" practicable because the screw is *liable to be turned* and *one turn* of the screw *would loosen it.*

Witness Leeds testified that his firm had the Wiard Socket and Screw in stock in the store for nine or ten years to his knowledge, because there was *no sale for them.*

Witness Osborne testifies that his firm had the Sargent-Hull Cattle Tie Iron in stock as long as he had been a salesman in the store, which was over ten years, because there was *no sale for them*, and because Covert's Thimble displaced them.

The above witnesses are representatives of some of the largest and most responsible jobbing houses in the United States.

From this testimony it will be seen that any dealer who purchases a thimble *without* a *pointed screw* is almost certain to have the goods *remain upon his hands* as soon as his customers discover the fact, and should he sel them the consumer runs the great risk and danger of having his animals *choked* to *death.*

We therefore *caution* all dealers and consumers to *carefully examine* all the *thimbles* and *rope goods* before purchasing, and be *positive* that the *necessary point is on the screw, or our Trade-Mark on every label or tag.*

By so doing they will *protect themselves against loss and damage* and guard against imposition.

COVERT MANUFACTURING COMPANY,

WILLIAM A. BAEDER. HOWARD R. KERN.

BAEDER FLINT PAPER CO.,

283 Pearl Street, New York.

P. O. Box 2014, New York City.

WORKS, ARLINGTON, N. J.

Extract from the "Daily Register," the New York Law Journal, July 7, 1888.

ANDREWS, J.

Baeder et al. v. Baeder et al. (two cases)—After a careful examination of the voluminous papers submitted in these cases I am of the opinion that Baeder, Adamson & Co. branded their second quality of flint paper with the word "Baeders," for the express purpose, and with the effect of inducing the public to purchase such second quality of paper as and for the first quality of the flint paper of the plaintiffs. William A. Baeder and Howard R. Kern; and that the defendant, the Russell & Erwin Mfg. Co. have, knowingly and intentionally, actually sold such second quality paper of Baeder, Adamson & Co. as and for the first quality paper of said William A. Baeder and Howard R. Kern. These acts of Baeder, Adamson & Co., and of the Russell & Erwin Mfg. Co. are clearly unlawful, and the motion to continue until the trial of the action the injunction, heretofore granted by Mr. Justice Barrett, in the action brought against those parties by Baeder & Kern will be granted, with $10 costs. I do not think that the mark used by Baeder & Kern can be considered a simulation of Baeder, Adamson & Co.'s first quality mark, nor that it is intended or calculated to mislead or deceive purchasers into taking Baeder & Kern's Paper as and for the first quality paper of Baeder, Adamson & Co. The motion for an injunction, in the action brought by Baeder, Adamson & Co. against William A. Baeder & Kern will be denied, with $10 costs.

WE ARE NOT IN THE COMBINATION.

THE STRONGEST GLUE IN THE WORLD.

2 GOLD MEDALS AWARDED LONDON 1883. NEW ORLEANS 1885.

RUSSIA CEMENT CO. Gloucester, Mass.

SOMETHING NEW

THE PATENT ADJUSTABLE BRUSH.

Our new Patent Can can be carried in the pocket and used without danger of soiling from the can or brush; all superfluous glue is removed on wiper. This style is made in three sizes, half pint, gill and half gill. Our regular cans are half pint, pint, quart, two quart and gallon. Bottles, two sizes as heretofore.

At the New Orleans Exposition (where a Gold Medal was awarded) a piece of Georgia pine butted, one inch square, on a Testing Machine, registered 1620 lbs. before parting.

Does not set quickly like the old style Glues, and has FOUR TIMES the strength.

No Heating required.

No other Glues have the RECORD of 1620 lbs. to the square inch.

The fact that the sales of

LEPAGE'S

THE ONLY GENUINE

LIQUID GLUE

has greatly increased during the past year, so that we have been unable to manufacture the goods as fast as called for is the best proof that the public appreciates A GOOD THING.

To meet this demand we have recently greatly increased the capacity of our works, and have now the most scientifically arranged glue plant in the world, no expense having been spared which would in any way contribute toward the

ABSOLUTE PERFECTION

of the products.

THE WIDE AWAKE DEALER

is not slow to see that it pays him to keep in stock those goods which are sure of QUICK SALES. Don't be cajoled into buying the various Liquid Glues now in the market for which claims are made that cannot be substantiated.

That the Dealer and Public may be sure that they are not deceived in making their purchases we have commenced putting the autograph below on all the Genuine LePage Glues.

Russia Cement Co.
GLOUCESTER, MASS.

These Glues are used in the Smithsonian Institute, at Washington for all its works of mounting specimens, by the Government Arsenals and Department Buildings, by the Pullman Palace Car Co., Mason & Hamlin Organ and Piano Co., and by thousands of first-class manufacturers and mechanics throughout the world, for all kinds of fine work.

WORCESTER MASS.,

MANUFACTURERS OF

A. G. COES' PATENT

SCREW WRENCHES,

The Strongest Wrench made, and the only successful re-enforced bar.

The Ferrule is firmly secured in place by a nut screwed on the bar.

Particular attention is called to the way in which the handle is made and fastened to the shank.

This Handle is made better and stronger than heretofore by using our new Cup Tip at the end which encloses the wood and keeps it from splitting. This is the only wrench which has the wood handle firmly secured and held together at each end, and it will stand more rough usage and last longer than any now made. It is not affected heat, cold or moisture.

None Genuine unless Stamped,

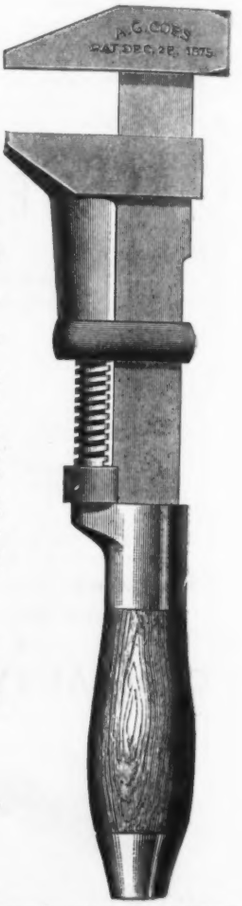
JOHN H. GRAHAM & CO., Agts.



Bemis & Call Hardware & Tool Co.

PATENT CUMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This Wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PATENT PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

For Circulars and Price List, address

BEMIS & CALL HARDWARE & TOOL COMPANY, Springfield, Mass.

This Wrench can be Furnished with Long Nut or Sleeve.

AXLEINE

is a fine quality of Axle Grease, put up in square tin boxes containing one pound; beautifully decorated in assorted colors; designed especially for the Hardware Trade. Showy and attractive shelf goods.

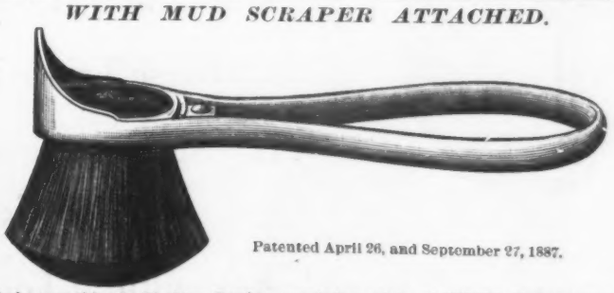
THOMPSON MFG. CO.

LANSINGBURG, N. Y.

P. O. Box 46

THE ROYAL DAUBER.

WITH MUD SCRAPER ATTACHED.



Patented April 26, and September 27, 1887.

An entirely new thing in Blacking Brushes, consisting solely of TINNED MALLEABLE IRON and PURE BRISTLES. SOLID, ROUND-FACED, INDESTRUCTIBLE.

SOLID.—Not bored and drawn, nor secured with pitch or cement. Not several small knots, but ONE SOLID KNOT OF PURE BRISTLES. NO HORSEHAIR.

ROUND-FACED.—Takes Blacking from the box on its centre instead of its edges, and will therefore spread it evener, smoother and thinner, ensuring a better polish than any flat-faced brush.

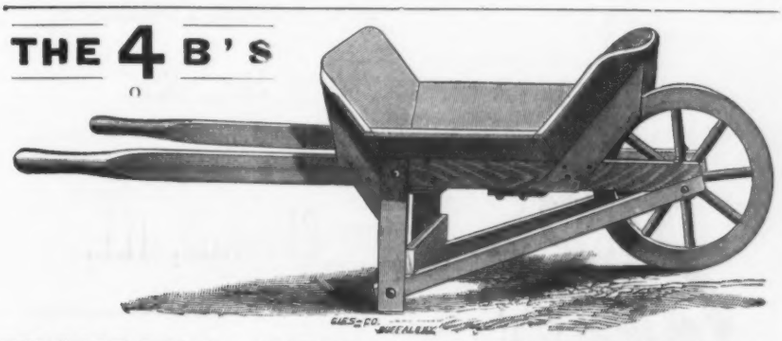
INDESTRUCTIBLE.—Because the only materials used are tin-coated iron and bristles, put together to stay, the knot of bristles being held IN ONE SOLID MASS, BY COMPRESSION, IN A GRIP OF IRON, and fastened with an iron rivet. Warranted not to "spread" or "clog" with blacking.

WILL OUTLAST A DOZEN OF ANY OTHER KIND.

This DAUBING BRUSH is made WITH A SCRAPER FOR REMOVING MUD FROM THE CREVICES OF THE SHOES. The utility of this is too apparent to need a word of commendation.

PEABODY & PARKS, MFRS., TROY, N. Y.

THE 4 B'S



BRONSON'S BEST BOLTED BARROW.

Full size, bent tray, planed, well finished and bolted. The legs and braces are bolted in such a manner as to form a very substantial frame. This wheelbarrow has all the merits of the so-called bolted barrows, but is not the equal of the Champion, Champion, Jr., or Champion King, these being the styles which have given the Bolted Wheelbarrow a world-wide reputation.

It is wonderful how good you can make even a cheap article when you apply earnest, active thought and nimble fingers. The above cut represents a cheap wheelbarrow, and yet it is so good that it surprises all.

If you want to see the newest and best selling wheelbarrow that was ever made, write for our catalogue and examine the different sizes of Fay's Combined Tray and Side Wheelbarrow. We make wheelbarrows of every description. Let us figure with you before you place your order.

"RIVAL" PATENT Lawn Sprinkler.

Cheapest and Best in Use.

Agents Wanted. Liberal Discount to Buyers.

The Spray from it covers upwards of 1000 *sq. feet of lawn.* It is the only patent adjustable Sprinkler which is adaptable to any water pressure. Being made of brass, and having no revolving parts to wear out, or mall openings to clog up it can be operated with sandy or muddy water as well as clear, and will last for years. To operate, screw Sprinkler on end of hose, stick the rod into the ground in a vertical position, adjust the acorn to suit pressure and spray wanted and it is ready for use. It may be so regulated as to throw a spray *as coarse as rain or as fine as mist*, and will make one of the most beautiful fountains imaginable. It is unequaled in merit, requires no attention and is sold at a less price than any sprinkler in the market. Remember, the RIVAL is the only Sprinkler made by which the coarseness of the spray and the area to be wet can be regulated. They are packed 1 doz. in a box, and finished either plain or nickel-plated.

FULL SIZE.

¾ Inch Regular Hydrant Thread, $7.50
(or Pipe Thread to order) per doz. 12.00
1 In. en. Ker Gas Pipe Thread, "
☞ Sample Sprinkler sent prepaid on receipt of 60 cents.

Miller Lock Co., Phila., Pa.
Smith & Egge Mfg. Co. Bridgeport.
Quackenbush Abram, New York.
Romer & Co., Newark, N. J.
Yale & Towne Mfg. Co., Stamford

Machinery,
Adt John & Son, New Haven, Conn.
Barnes W. F. & John Rockford, Ill
Birmingham Iron Foundry, Birmingham, Conn.
Bigelow C. H., 45 Dey, N. Y.
Brettell & Wilson, Rochester, N. Y.
Bridgeport Machine Tool Works, Bridgeport, Conn.
Briggs, Marvin 12 Broadway, N. Y.
Bullard E. P., 62 College Place, N. Y.
Curtis & Curtis, Bridgeport, Conn.
Cruikshank D. B. Providence R. I.
Deering Wm. & Co., Chicago, Ill.
Diamond Mch. Co., Providence, R. I.
Fall River Iron Works Co., Fall River, Mass.
Garvin E. E. & Co., 139 Centre, N. Y.
Gray, R. J. & Co., 131st & 4th Ave., N.Y
Gray's Ferry F'd'y & Boiler Co., Phila. Pa.
Harrington, E. Son & Co., Phila., Pa.
Hendey Machine Co. Torrington Ct.
Johnson, Israel H., Jr., & Co., Phila.
Lincoln Iron Works, Rutland, Vt.
Lodge Davis & Co., Cincinnati, O
Lovegrove & Co., Philadelphia, Pa.
Newark Machine Tool Works, Newark N. J
New York Mach'y Depot, N. Y.
Pedrick & Ayer, Philadelphia, Pa.
Prytherch P., 407 W. 40th, N. Y.
Pittsburgh Mfg. Co. Pittsburgh, Pa.
Prentiss Tool & Supply Co., N. Y.
Robertson, W. H., Chicago, Ill.
Sebastian May & Co. Cincinnati, O.
Sellers Wm. & Co. Phila.
Snell Henry I., Philadelphia, Pa.
Stokes & Parrish Machine Co., Phila.
Stow Flexible Shaft Co., Ld., Phila.
Waterbury Farrel Foundry and Machine Co., Waterbury, Conn.
West, Thos. D. F'dy Co., Cleveland, Ohio.
U. Baird Machinery Co., Pittsburgh.
Wetherill Robert & Co., Chester, Pa.
Wood Thos. & Co Philadelphia, Pa.
York, S. M., Cleveland, O.

Machinists' Scales.
Comin & Leighton, Syracuse, N. Y.

Machinists' Tools and Supplies.
Blaisdell P. & Co., Worcester, Mass.
King J. M. & Co., Waterford, N. Y.
Palmer, Cunningham & Co., Phila.
Sellers, Wm. & Co., Phila.

Mallets.
N. Y. Mallet and Handle Works, NY.
Boston & Lockport Block Co., Boston, Mass. and Lockport, N. Y.

Mantels.
Ehman, C., Chicago, Ill.

Match Safes.
Dangerfield F. S., Auburn, N. Y.

Meat Choppers.
Enterprise Mfg Co., Philadelphia, Pa
Lloyd and Supplee Hdw. Co., Philadelphia, Pa.

Metals.
Dickerson, Van Dusen & Co., N. Y.
Fearing Wm. S., 100 Chambers, N.Y.
Horton, Gilmore, McWilliams & Co., Chicago, Ills.
Naylor & Co., 99 John, N. Y.
Phelps, Dodge & Co., Cliff st., N. Y.

Metal Brokers.
American Metal Co., N. Y.

Metallurgists.
Britton J. Blodgett, Phila.

Mine Lamps.
Hunt & Connell, Scranton, Pa
Leonard, B. K., Scranton, Pa.
Leonard, T. F., Scranton, Pa.

Molding Sand.
Paxson J. W. & Co., Phila.

Nail Machinery.
Thomas, Dago J., 1 Broadway, N. Y.
Pittsburgh Mfg. Co., Pittsburgh, Pa.

Nails.
Bellaire Nail Works, Bellaire, O.
Borden & Lovell, 70 West, N. Y.
E. & G. Brooke Iron Co. Birdsboro.
Cumberland Nail & Iron Co. Phila.
Fuller Bros. & Co. 139 Greenwich, N.Y.
North Chicago Rolling Mill Co. Chicago, Ill.
Oxford Iron Co., 81 Washington N. Y.
Pottstown Iron Co., Pottstown, Pa.
Stebbins C. J., 103 Reade, N. Y.

Nails, Cut.
Borden & Lovell, 70 West, N. Y.

Nickel Platers' Supplies.
Eddy Electric Mfg. Co., Hartford, Conn.
Hanson, Van Winkle & Co., Newark, N. J.
Zucker & Levett Chemical Co., 537 to 564 West 16th, N. Y.

Norway Shapes. *Rollers of.*
Naylor & Co., 99 John, N. Y.
Rowland William & Harvey, Frankford Philadelphia.

Nuts, Bolts, &c., *Makers of.*
Allentown Rolling Mills, Allentown.
American Bolt Co. Lowell Mass.
Blake & Johnson, Waterbury, Conn.
Port Chester Bolt and Nut Co., Port Chester, N. Y.
Russell, Burdsall & Ward, Pt. Chester.
Wilson J. Fred. Worcester, Mass.
Wm. H. Haskell Co., Pawtucket, R. I.

Oilers.
Hammer & Co., Branford, Conn.

Oil Stones.
A. F. Pike Mfg. Co., Pike Station, N. H.
Chase Geo., 107th & Harlem R., N.

Oil Stoves.
American Oil Stove Co., Gardner, Mass.

Ox Shoes.
Haven, Jas. L. Co., Cincinnati, O.
Woodruff, Walter W. & Sons, Mt Carmel, Conn.

Packing.
R. H. Bagott, 116 John St., N. Y.
Chalmers-Spence Co., 419 8th, N. Y.
Lombaert Mfg. Co., Phila.
N. Y. Belting and Packing Co., N.Y.

Padlocks.
Fraim, E. T., Lancaster, Pa.

Pails.
Brower, John, New York.

Paint.
Cleveland Iron Ore Paint Co., Cleveland, O.
Felton Rau & Sibley, Phila., Pa.

Patent Solicitors.
Gooch, C. J., Washington D. C.
Howson & Howson Phila. & Wash'gton
Stocking E. B. Washington, D. C.

Perforated Metal.
Harrington & King Perforating Co., Chicago, Ill.

Phosphor Bronze.
Phosphor Bronze Smelting Co., Limited 512 Arch, Philadelphia.

Pig Iron.
Chamberlain, Wheeler & Co., Columbus Ohio.
Hart Wm. R. & Co., Philadelphia.
Montour Iron and Steel Co., Reading.

Pipe, Bent.
National Pipe Bending Co., New Haven.

Pipe Cutters.
Cox & Sons, Philadelphia, Pa.
Curtis & Curtis, Bridgeport, Conn.
Pancoast & Maule, Philadelphia.
Saunder's Sons, D., Yonkers, N. Y.

Pipe Grips.
Prentiss Vise Co., 23 Dey, N. Y.

Pipes, Fittings, &c., *Makers of.*
McNab & Harlin Mfg. Co., N. Y.

Pipe, Water and Gas. *Makers of.*
Donaldson Iron Co, Emaus, Pa.
Fox John, 100 Broadway, N. Y.
Morris, Tasker & Co., 224 South Third street, Phila.
Reading Iron Works, Philadelphia.
Shickle, Harr'son & Howard Iron Co. St. Louis, Mo.
Wood R. D. & Co., Phila.

Plane Irons, *Manufacturers of.*
Buck Bros., Millbury, Mass.

Planes, *Manufacturers of.*
Gage Tool Co., Vineland, N. J.
Stanley Rule & Level Co., N. Y.

Plated Ware.
Hall, Elton & Co., 47 E. 13th, N. Y

Plumbers' Tools.
Osborne C. S. & Co., Newark, N. J

Police Equipments.
Baldwin Jos. & Co., Newark, N. J.
French, S. A., 400 Broome St., N. Y.

Polishing Machines.
Diebel Mfg. Co., Philadelphia, Pa.
Hall Mfg. Co., Philadelphia, Pa.
Watson & Stillman, 204 E. 43d, N Y

Post Hole Diggers.
Chieftain Hay Rake Co., Canton, O.
Lagonda Mfg. Co., Springfield, O.

Poultry Nettings.
Clinton Wire Cloth Co., Clint'n, Mass "Silver Finish."

Powder.
King's Great Western Powder Co., Cincinnati, Ohio.
Laflin & Rand Powder Co., 29 Murray St., N. Y.

Power Hammers.
Belden R. A. & Co., New Haven, Conn.
Bradley & Co., Syracuse, N. Y.
Dienelt & Eisenhardt, Philadelphia
Duncan, W. P. & Co., Bellafonte, Pa.
Stiles & Parker Press Co., Middletown, Conn.

Power Punches and Shears.
Niagara Stamping & Tool Co., Buffalo, N. Y

Power Transmission Machinery.
Hill Clutch Works, Cleveland, O.

Press and Strainer, Fruit.
Paine, Diehl & Co., Philadelphia, Pa

Presses, Dies, &c.
Crosby G. A. & Co., Chicago, Ill.
E. W. Bliss Co., Brooklyn, N. Y.
Ferracute Mach. Co., Bridgeton, N. J.
Niagara Stamping and Tool Co., Buffalo, N. Y
Stiles & Parker Press Co., Middletown, Conn.

Presses, Power, *Makers of.*
Merriman A. H., West Meriden.
Niagara Stamping & Tool Co., Buffalo, N. Y.
Waterbury Farrel Foundry and Machine Co., Waterbury, Conn.

Pressure Regulators.
Aller Amos, 109 Liberty, N. Y.
Watson McDaniel, Phila., Pa.

Pruning Shears.
Henry, John F., Hamden, Conn.

Pulleys.
Edinburg Pulley Co., Edinburg, Md.

Pulley Blocks.
Yale & Towne Mfg. Co., Stamford, Conn.

(See Alphabetical Index, Page 105.)

Pumping Machinery.
Dean Bros. Steam Pump Works, Indianapolis Ind.
Gou'ds Mfg Co, New York.
Hooker-Colville Steam Pump Co., St. Louis, Mo.
Hughes Steam Pump Co ,Cleveland O
Keystone Engine and Machine Wks Phila., Pa.
Laidlaw & Dunn Co., Cincinnati. O.
Valley Pump Works, Easthampton Mass.

Pumps, Force.
Myers P. E. & Bro., Ashland, O.
Union Mfg. Co., 103 Chambers, N. Y

Pumps. *Makers of.*
Clark Bros , Belmont, N. Y.
Columb.ana Pump & Machine Co.
Douglas W. & B., Middletown, Conn.
Gould's Mfg Co , 60 Barclay, N. Y.
Silver & Deming Mfg.Co. Salem,O.
Union Mfg Co 103 Chambers N Y

Water Elevator & Purifier Co., Cincinnati. O.

Punches.
Fulton Iron and Engine Works, Detroit, Mich.

Punching and Shearing Presses.
Old Colony Rivet Co., Kingston, Mass.
Stiles & Parker Press Co., Middletown, Conn.
Watson & Stillman, 204 E. 43d, N. Y.

Radiators.
Nason Mfg. Co., 71 Beekman St., N. Y.

Rails, Iron and Steel.
Allentown Rolling Mills, Allentown.
Cambria Steel.—Cambria Iron Co., Johnstown Pa.
Joliet Steel Co., 11 Pine, N. Y.
Montour Iron & Steel Co., Danville.
North Chicago Rolling Mill Co., Chicago, Ill.
Scranton Steel Co., Broadway, N. Y
Union Steel Co., Chicago, Ill.

Railway and Machinists' Supplies.
Rogers, H. A. & Co., 19 John, N. Y.
Walbaum, W. H., Philadelphia, Pa.

Rat and Mouse Traps.
F. B. Adams Co., Erie, Pa.
Estey W. J., 71 Fulton, N. Y.
Hotchkiss, E. S., Bridgeport, Ct.
Ripley Mfg. Co., Unionville, Ct.
Knapp & Bowles Mfg. Co., Bridgeport, Ct.

Razors.
Dame, Stoddard & Kendall, Boston, Mass.
J. R. Torrey Razor Co., Worcester Mass.

Refrigerator Door Fasteners.
Conroy P. J. & Co., Philadelphia,

Refrigerator Trimmings.
Brainerd & Co., 97 Chambers St., N. Y.

Rivets.
Disosway & Henderson, 165 Greenwich, N. Y.
Old Colony Rivet Co., Kingston, Mass.
Plymouth Mills, Plymouth, Mass.
Reed & Prince, Worcester, Mass.
Townsend W. P. & Co., New Brighton, Pa.

Rock Drills.
Clayton Air Compressor Works, Brooklyn, N. Y., and Dey, N. Y.

Rolling Mill Machinery.
Robinson-Rea Mfg. Co., Pittsburgh.

Rolls, Chilled, Sand and Steel.
Garrison A. & Co. Pittsburgh, Pa
Lloyd-Booth Co., Youngstown, Ohio.
Seaman, Sleeth & Black, Pittsburgh.

Rope Snaps.
Pratt & Letchworth, Buffalo, N. Y.

Rules, *Manufacturers of.*
Stanley Rule & Level Co., 29 Chambers, N. Y.

Sash Balances.
Caldwell, W. H., Rochester, N. Y.
R. B. Hugunin Mfg. Co., Hartford, Conn.

Sash Cords and Chains.
Morton Thos., 66 Elizabeth, N. Y.
Smith & Egge Mfg. Co., Bridgeport.

Sash Lifters.
Brainerd & Co., 97 Chambers St.

Sash Locks.
Champion Safety Lock Co., Cleveland, O.
Clarin Mfg. Co., Cleveland, O.
Clancy, J. R., Syracuse, N. Y.
Graham, Jno. H. & Co., 113 Chambers st., New York.
Ives H. B. & Co., New Haven, Conn.
Sise, Gibson & Co., 100 Chambers, N. Y.

Sash Pulleys.
Palmer Hardware Mfg. Co , Troy, N. Y.

Saws. *Makers of.*
Atkins, E. C. & Co., Indianapolis, Ind.
Blake & Johnson, Waterbury Ct.
Wheeler, Madden & Clemson Mfg. Co., Middletown, N. Y.

Saw Sets.
Morrill, Chas., 79 Chambers St., N. Y.

Saw Vises.
Seneca Falls Mfg. Co., Seneca Falls, N. Y

Scales. *Manufacturers of.*
Buffalo Scale Co., Buffalo, N. Y.
Chatillon John & Sons. Cliff, N. Y
Howe Scale Co., Rutland, Vt.
Rienle Bros., Philadelphia.
Troemner, Henry.

Screw Cutting Machinery.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Screw Drivers.
Brown, R. H. & Co., New Haven, Ct.
Decatur Coffin Co , Decatur, Ill.
Eurien Bow Mfg. Co., Plantsville, Conn.
Gay & Parsons, Augusta, Me.

Screw Plate and Pipe Cutter.
Jarecki Mfg. Co., Erie, Pa.

Screws, *Makers of.*
Wm. H. Haskell Co., Pawtucket.
Miles F. S. 208 Quarry Philadelphia
Worcester Machine Screw Co., Worcester, Mass.

Scroll Saws.
Seneca Falls Mfg. Co., Seneca Falls, N. Y
King, O'Connor & Co., Baltimore, Md.

Scythe Stones and Whetstones
A. F. Pike Mfg. Co , Pike Stat'n, N.H.
Cleveland Stone Co., Cleveland, O.
Lake Huron Stone Co., Detroit and Chicago.

Shafting, *Makers of.*
Cresson Geo. V., Philadelphia, Pa.
Pierson & Co 24 to 27 West. N. Y.
Wood, Thos. & Co., Phila., Pa.

Shears, Iron.
E. W. Bliss Co., Brooklyn, N. Y.

Shears and Scissors.
Acme Shear Co., Bridgeport, Conn.
Henry Seymour Cutlery Co., N. Y.
Schollhorn & Co., New Haven, Ct.

Sheep Shears.
Henry Seymour Cutlery Co., N. Y.

Shoe Brushes.
Thompson Mfg. Co., Lansingb'h, N. Y.

Shovels, Spades and Scoops.
Hussey, Binns & Co., Pittsburgh, Pa.
Rowlands Sons, T., Philadelphia, Pa.
Sanford Fork and Tool Co., Terre Haute, Ind.

Shutter Worker.
Dodd Shutter Worker Co., 26 Church, N. Y.

Sinks.
Douglas W. & B., Middletown, Conn.

Smelting Works.
Reeves Paul S., 760 S. Broad, Phila.

Speaking Tubes.
Ostrander W. R. & Co., N. Y.
Walsh Owen, 105 Walker, N. Y.

Spelter.
Manning & Squier, 111 Liberty, N. Y.

Springs.
Dunbar Bros., Bristol, Conn.
Morgan Spring Co., Worcester, Ma
Sabin Machine Co., Montpelier, Vt
Titus & Babcock, Rochester, N. Y.

Spring Hinges.
Stover Mfg. Co., Freeport, Ill.
Union Mfg. Co., 103 Chambers, N. Y.
Van Wagoner & Williams Co., N. Y.

Stamping Works.
Niagara Stamping and Tool Co., Buffalo, N. Y.

Staples.
New Haven Staple Works, New Haven, Conn.

Strops.
Torrey J. R. & Co., Worcester, Mass.

Steam Hammers, &c., *Makers of.*
Dieneit & Eisenhardt, Philadelphia.
Dudgeon Richard 24 Columbia, N. Y.
Dunham W. P. & Co., Bellefonte Pa.

Steam Heating.
Broomell & Sanas, York, Pa

Steam Pumps, &c., *Manufacturers.*
Goulds Mfg. Co., 60 Barclay, N. Y.
Hooker-Colville Steam Pump Co., St. Louis, Mo
Hughes Steam Pump Co.,Cleveland, O.
McGowan John H. &Co., Cincinnati.
Norwalk Iron Wks.Co., So. Norwalk.

Steam Traps.
Aller Amos. 109 Liberty, N. Y.
Watson & McDaniel, Phila., Pa.

Steel Figures and Alphabets.
Stutaman J. M., 151 William, N. Y.

Steel Importers.
Abbott Jere & Co., N.Y. & Boston.
Hobson Franc.s & Son, 97 John, N. Y.

Bradley's HEATING FORGES

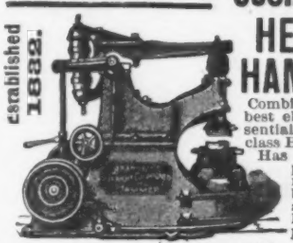
Established 1832

With a manufacturing experience of over half a century, we recommend these machines to be the best, simplest, most durable and combining all the essential elements.

For hard coal or coke. Indispensable in all shops to keep **Bradley's Cushioned Hammers** and men fully employed and reduces cost of production.

BRADLEY & CO., Syracuse, N. Y.

BRADLEY'S UPRIGHT CUSHIONED HELVE HAMMER



Combines all the best elements essential in a first-class Hammer. Has more good points, does more and better work and costs less for repairs than any other **Hammer** in the **World.**

BRADLEY & CO. Syracuse, N.Y.

GATE CITY STONE FILTER CO.,

46 Murray St., New York.

☞ Fine China and Gray Stone-ware Jars to hold the Water.

☞ A NATURAL STONE for a Filtering Medium.

☞ Fitted with separate Patent Ice Chambers to cool the water.

☞ As easily cleaned as a Water Pitcher.

☞ No objectionable material used in the construction of this Filter

All water is filled with impurities during the rainy season.

☞ This Filter will ABSOLUTELY CLEAN IT

Address as above for Descriptive Price List. Mention *The Iron Age.*

Open Cut shows Filter Disc used in our Filters, and Separate Patent Ice Chamber.

NEW YORK SAFETY DUMB WAITER FIXTURES

Patented United States, April 19th, 1887; in Canada, May 18th, 1887.

The MOST COMPLETE, SIMPLE and ABSOLUTELY SAFE WAITER made. Provided with SAFETY ROPE, AVOIDING ACCIDENT. ENTIRELY NOISELESS, and moves with perfect ease.

FIXTURES ONE SIZE ONLY, adapted to any size waiter. Can be adjusted by any CARPENTER or MECHANIC. DIAGRAM and FULL DIRECTIONS ACCOMPANY EACH SET.

HANDSOMELY BRONZED, and packed ONE SET in a BOX. Sold by the Hardware trade.

PRICE, 15.00.

For catalogue address the manufacturers.

STANLEY'S PATENT Roofing Bracket.

STANLEY

Rule & Level Co.

New Britain, Conn.

SOLD BY ALL HARDWARE DEALERS.

The parts are of Spring Steel, firmly riveted together. Push the beveled ends up under two layers of shingles, already nailed down; the Bracket has two separate bearings on the roof, and is so formed that any increase of pressure from above, increases its stability.

One dozen per minute can be placed in position, or removed; and great economy in lumber and nails will be found. There are no loose parts to get lost; and no nail-holes are made in the roof.

No. 1. Roofing Brackets, 8 inch, ½ dozen in box. Per Doz., $3.00
No. 2. Roofing Brackets, 10 inch, ½ dozen in box. Per Doz., 4.00

THE CLERK GAS ENGINE.

Highest Award for Gas Engines at American Institute Fair, New York, 1883.

Makes an ignition at every revolution of the Fly Wheel. Is started with ease, and gives full power immediately. No danger from fire; no extra insurance nor skilled engineer required. Runs perfectly steady; only uses gas when required. Workmanship of the best description and guaranteed. Indicated power considerably larger than in any other Gas Engine of the same size, each Engine giving from 1 H.-P. to 4 H.-P. more than named. Is unsurpassed by any other Gas Engine for running any kind of machinery or electric light, arc or incandescent. Has means for regulating to suit any coal or water gas.

No Boiler, Coal, Ashes or Engineer. Made in Sizes of 4, 8, 10, 15 and 25 H.-P.

RIEHLE BROS., 413 Market St., Phila.

HIGH-SPEED POWER TRAVELING CRANES.

We are now prepared to build **High-Speed Power Traveling Cranes** for any capacity of load, any length of runway and any width of span, with one or with two trolleys on the bridge, these trolleys to work either slow or fast, together or independently, in like or in opposite directions, horizontally or vertically, while the bridge can be traversing slow or fast at the same time in either direction. The speeds of bridge on runway are 100 *feet and* 200 *feet per minute;* the speeds of trolleys on bridge are 50 *feet and* 100 *feet per minute;* and there are four hoisting speeds of 5, 10, 20 *and* 40 *feet per minute;* all can be varied quickly without the least shock or jar from zero to maximum or to any intermediate speed. *The load is always automatically sustained, thus avoiding absolutely the great danger and anxiety which are inseparable from the use of those cranes which require the operator to apply the brake.* We have had one of these Cranes of 26 tons capacity in constant use in our foundry for nearly two years, and we offer them with full confidence for the greatest range of service. We invite the correspondence of parties interested in the subject.

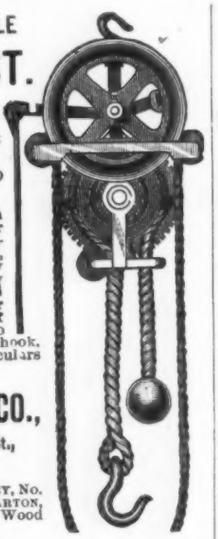
July, 1887. WM. SELLERS & CO., Incorporated, Philadelphia, Pa.

PATENT PORTABLE
ROPE HOIST.
ONE MAN SUFFICIENT.

The Best Quick Lift Hoist Made.

WILL HOLD A LOAD AT ANY POINT.

Ropes weigh less than chain. Can be used for long or short lifts. Without touching hand rope, the load may be quickly lowered by a slight steady pull on brake cord. Load rope can be pulled up or down by hand instead of pulling on hand rope to raise or lower empty hook. Send for descriptive circulars of specialties.



ENERGY MFG. CO.,
1115 to 1123 S. 15th St.,
Phila. Pa.

BELDEN'S Upright Power Hammer.

This Hammer possesses advantages superior to any other in the market. Is has neither cylinders, valves nor piston rods, consequently repairs are trifling. It takes up less space, less power to drive, strikes much harder and truer blows than hammers with double the weight of ram.

It can be worked to strike good alternate blows on a 3-inch and ¾-inch bar when a 100-pound hammer is used, and can be used on die work to a far greater advantage than any other hammer known. Manufactured by the

Bridge Store, Dover St. and Franklin Sq., New York.

COIL-BOILERS FOR THE UNITED STATES NAVY.—NAVY DEPARTMENT, Washington, D. C., August 2, 1888.—The Navy Department, having in view the possible decrease in weight of machinery in vessels of war by the use of tubulous, sectional or coil-boilers, has determined to adopt such boilers, if suitable can be found, for a portion of the steam-power of one or more of the vessels about to be built. To this end manufacturers who wish to offer such boilers for use by the Department are hereby invited to furnish plans of the same, adapted to an armored coast-defence vessel, on or before September 15, 1888. Plans must be accompanied by certificates that boilers of the same make are or have been in successful use at sea or on shore. Plans showing the space in the vessel available for boilers, particulars of the duty required and other information, may be obtained upon application to the Bureau of Steam Engineering. The boiler which appears to the Department, after investigation, to be the best for the purpose, taking into account the evaporative efficiency, the dryness of the steam, the weight of the boiler, the weight of the water contained, the accessibility for repairs, the ease of making repairs, the simplicity and interchangeability of the parts, the space occupied, the ease of firing and of regulating the feed, the suitability for working in battery, the capability of long-continued steaming without cleaning, and the durability, will be adopted in the coast-defense vessel above mentioned, provided that the price, which must be stated when the plans are submitted, is satisfactory to the Navy Department. Such boilers as appear to possess merit will be tested by the Navy Department, if the manufacturers so desire, to determine which is the more suitable for the purpose. Manufacturers who wish their boilers to be tested must furnish a boiler of the type of one of those proposed for the vessel and prepare it for test, either at their own works or at such place as may be arranged with the Department. The expense of the test of the accepted boiler will be borne by the Navy Department, and the cost of the fuel used in the test of the second best will also be borne by the Navy Department. All other tests must be at the expense of the parties offering boilers for competition.

WILLIAM C. WHITNEY,
Secretary of the Navy.

FOR SALE, CHEAP, Wire Machines.—6 second-hand Wire Nail Machines. 2 Rattlers or Polishers, 1 Emery Wheel, stand and wheels complete; 1 Engine Lathe, nearly new, for making dyes, and in first-class condition. FOR SALE.—A first-class Boiler and Sheet Iron Business in a thriving Western city of 100,000 inhabitants. Shop has been in operation eight years and has a growing and profitable business which can be largely increased. Good buildings, power tools, and first-class location on R. R. track. Good reason for selling. Correspondence and investigation from parties meaning business solicited. Address
"WESTERN CITY,"
Office of *The Iron Age*, 66-68 Duane St., N. Y.

Valuable Manufacturing Property for Sale.

The real estate and buildings now occupied by the Watertown Steam Engine Co., of Watertown, N. Y., will be offered for sale. The property covers about four acres; has an unfailing water power on the Black River estimated at 225 H.-P. Consists of machine shop, foundry, boiler shop, blacksmith shop, store houses and tenements. The buildings are equipped with line shafting, and could be adapted to a large variety of manufacturing purposes. Moderate cost of labor, combined with low freight rates and nearness to raw material, with an abundant water power, make Watertown an exceptionally good point for manufacturing. It is essentially a manufacturing town.

The property can be divided and sold in parcels if desired. Property is sold because the business has outgrown its present quarters and is to be moved to another location in the same city, where more room is available.

Address WATERTOWN STEAM ENGINE CO., Watertown, N. Y.

WE have at our Buffalo store, 415 Hamburgh street, a number of second-hand Locomotive, Upright and Horizontal Boilers, with good flues and in good serviceable condition, which we will sell at a sacrifice.

ASSIGNEE'S SALE

—OF—

The Lomas Forge and Bridge Works,

OF CINCINNATI, OHIO.

BY ORDER OF THE PROBATE COURT, the undersigned will receive written proposals up to Monday, October 8, 1888, at 12 M., at the office of the company, No. 217 West Second Street, for the purchase of the above works, consisting of Engine and Boiler, Overhead Travelers and Cranes, Heavy Lifts, Power Presses, Drill Presses, Screw Cutters, Milling Machines, Lathes, Hydraulic Press, Shaping Machines, &c., and all other Machinery, Tools, Fixtures, Office Furniture, Material, Goods on hand, and other personal property belonging to the concern. It is thoroughly equipped for making Bridges, Heavy Forgings, Bridge Nuts, Vises, &c.

Proposals will be received for the whole or any part of the property. This property can be seen at any time on the premises, Nos. 209 to 217 West Second street, and a full inventory found in the office.

Terms of sale—One-third cash and the other balance in six and twelve months, with interest and approved security. All bids subject to the approval of the Probate Court.

CHARLES ANDERSON, Assignee.
John W. Herron, Attorney.

FOR SALE.

A thoroughly well assorted jobbing stock of Shelf Hardware, situated in one of the foremost Missouri River cities. Do an annual business of from $300,000 to $400,000 and will increase each year. Jobbing trade alone of the city for 1887 exceeded $10,000,000. Building now occupied is one of the best arranged and equipped for the easy handling of goods in the West. Can give purchaser lease for three to five years at a very reasonable rent. The city enjoys as favorable seabord and distributing freight rates as any in the West. Territory tributary to the city makes volume of business limited only by capital employed. Sellers do not care to dispose of stock before January 1st, 1889, and by that time can reduce same to between $50,000 to $60,000. The business has always been and is now profitable, and sellers will show the very best of reasons for disposing of stock and good will. Such an opportunity rarely presents itself for purchase of a well-established and profitable jobbing business. For further and more detailed particulars, apply to or address

BECKTOLD & CO., 210 Pine Street, St. Louis, Mo

FOR SALE,
The Business of
W. A. IVES & CO.

Owing to the death of Mr. Ives, who had no partner, his executors offer for sale the above long-established and profitable business.

The factory is situated four miles from New Haven, Conn., where Mr. Ives lived, and the drive is exceptionally agreeable. The property includes two factory buildings and machinery, a large tenement and a good cottage, good water power, steam engine, and the stock finished and in course of manufacture of augers, bits, braces, and kindred tools, many of them patented, and the good will. The works are running full force and time, and are so organized that experience is not essential to a purchaser. Many of the employees own their dwellings, near the factory, and some of them have been connected with it for generations.

Address CHARLES HOLT, Executor, 29 West Twenty-third Street, New York.

NOTICE.

We have appointed Mr. Chas. C. Loring, No. 4 Liberty Square, Boston, Mass., our agent in place of Mr. A. G. Tompkins, for the sale of our beams, channels, angles, tees and plates in the Eastern States, and any orders entrusted to him will receive our best attention.

SENT, PREPAID, ON RECEIPT OF PRICE, BY

DAVID WILLIAMS, Publisher and Bookseller,

66 and 68 Duane Street, New York.

ROOT'S HANDY CLOTH-BOUND HARDWARE PRICE CARDS.

COPYRIGHTED 1885.

THESE cards cover the lines having a large variety of sizes or numbers, save marking each package or article, in Retail stores, and are convenient for use in Wholesale Sample Rooms. They secure correct and uniform selling prices, for large and small buyers, save time, and are intended for years of constant use. Hence, no hardware dealer can afford to do without them, or spend the time to write and rule out cards by hand. They are printed in distinct type on the best paper, appropriately ruled with blue cross lines and red down rulings, for noting in pencil—List, Cost, Jobbing and Selling prices—as in specimen headings, shown herewith. Card A is mounted one side and B the other side of a tough, heavy card board, especially adapted for this use, protected on the edges by being *cloth-bound*, which saves framing. Two-thirds of them are 3 x 13½ inches. This size has been found convenient for hanging on a pilaster finish, or on any narrow surface, without hiding the goods. To hang or chain up each card, there is firmly inserted through the nickel-plated eyelet about 5/16 inch inside diameter. The comparative numbers of the different makers of cabinet and padlocks, rules, levels, etc., have been carefully corrected to the date of issue and many numbers added. Most houses require 6 to 12 cards extra, of each Nos. 32 and 33, to price lines not covered by the other numbers.

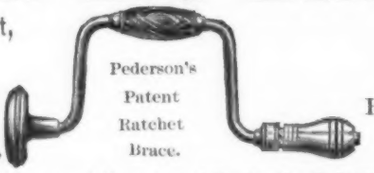
DAVID WILLIAMS, Publisher and Bookseller 96 and 68 Duane Street, New York

AMERICAN BIT BRACE CO.,

Nos. 122, 124 and 126 Washington Street, BUFFALO, N. Y.

New York City Agents,
SISE, GIBSON & CO.,
100 Chambers St., N. Y. City.



Southern Agents,
HOEN & VON KAPFF,
Baltimore, Md.

We have received orders so far ahead of our highest expectations (especially for the Pederson Ratchet Brace) that we have no doubt unavoidably caused many of our patrons serious inconvenience by being unable to give them the prompt attention we so much wish to bestow. We have, however, this week purchased several duplicate machines, which will now give us an enormous producing capacity, and enable us very soon to complete all of our orders. We trust that those who have kindly favored us with their patronage will bear with us a little while longer; and we can assure them that they will be abundantly paid for waiting. As we expect, from every indication, to be crowded to our utmost for months to come, we solicit orders *in advance*, which, of course, will receive first attention, at the time desired.

We are, very respectfully,

Sept. 1st, 1888. AMERICAN BIT BRACE COMPANY.

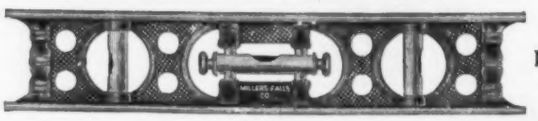
Commission Hardware

88 Chambers St., New York.

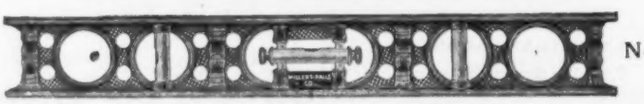
Agent—G. W. Bradley's Edge Tools, Axes, Coopers' Tools, Cleavers, Bush Hooks, Draw Knives, Ship-Carpenters' Tools, &c. Also a full stock of Planes, Brooks' Bright Wire Goods, Washita Stone and Taunton Tack Co.'s Rivets, &c.

GOODELL'S PATENT IRON LEVEL.

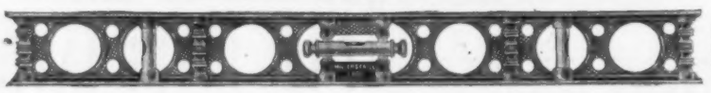
No. 23.



No. 24.



No. 25.



No. 26.

These levels are entirely new, both in design and construction. The improvement for which we shall ask Letters Patent consists in the ingenious method of adjusting the glasses, which is done by loosening one screw and tightening another. The points of these screws strike the case which holds the bubble glass near the end, one being on the upper, and the other on the lower side. The stocks are Japanned, while all the trimmings are burnished Brass or Nickel-plated.

PRICES.

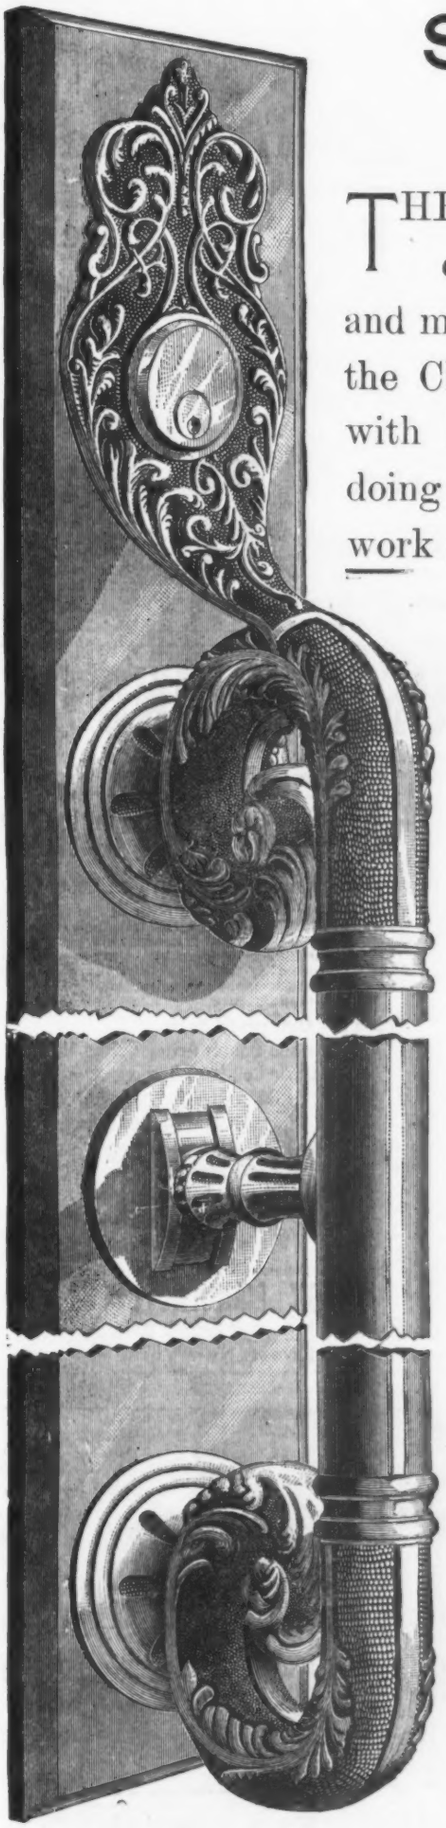
HARDWARE, TOOLS, &c.,

89 to 95 So. CLINTON ST., CHICAGO



SPECIAL WORK.

THE illustration shows a Combined Escutcheon and Bar Handle, which was designed and made by us specially for the fine building of the Chicago Board of Trade, which we fitted with hardware throughout. We have been doing a large and increasing amount of special work after architects' designs, or, where desired, we submit designs prepared by our own artists. Hardware dealers or others who are desirous of obtaining hardware suitable for residences or other buildings, of whatever size, will find it to the advantage of themselves and their customers to acquaint us with their wants. We manufacture a very extensive line of Locks and House Trimmings, varying greatly in price, on account of design and finish, but we make nothing except of the Best Material and Workmanship.

We call special attention to our line of Extra Heavy Butts with our Patent Automatic Lubricating Double Steel Bearings.

Address any Office of the Company, as below.

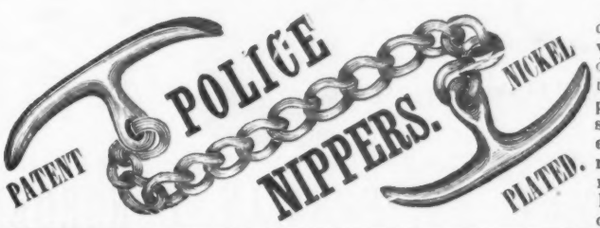
POLICE CHAIN TWISTERS OR NIPPERS.

Under Patent granted to A. P. Baldwin, July 7, 1874.



The attention of the Hardware Trade is called to the decision rendered in my favor in U. S. Circuit Court, So. Dist. of N. Y., Baldwin *vs* J. G. Conway Co., Limited, *et als*, wherein I prosecuted the defendants for selling Police Chain Twisters or Nippers, manufactured by Bean, of Boston, which are proved to be an infringement on my patent. We therefore warn the Trade and public generally against selling or using such Police Chain Nippers or Twisters, or any others, except those made by Jos. Baldwin & Co., and the improved patterns made by us exclusively for Tower & Lyon, N. Y., who have always respected our claims, and by whom our Police Chain Twisters are kept for sale. All such are stamped with our name or initials. All others are infringements. **JOS. BALDWIN & CO., Newark, N.J.**

The American Needle Fish Hook Co.,

MANUFACTURERS OF EVERY DESCRIPTION OF

FISH HOOKS.

This Company make no Hooks but *Filed Pointed Hooks*, and are sold for much less than any imported Hooks made in a similar manner. They are carefully inspected before being packed, and have no competition in price, except what are called the English Dubs, the points of which are ground and of a very inferior quality. We guarantee our Hooks equal if not superior in make and temper to any Hooks manufactured. These superfine Hooks are made of extra double refined Spring Steel Wire, by the most elaborate automatic machine ever constructed. Having made extensive improvements in our machinery, and in the process of tempering during the last year, we feel a perfect confidence in recommending our goods to the public, as being superior in manufacture and temper to any other make. And our facilities for manufacturing enables us to undersell the world. All orders for our goods promptly filled.

A MAN OF SAMPLES.

Something About the Men He Met "On the Road."

BY WM. H. MAHER.

Should be read by every business man in the country.
It is a book full of keen points about business men and business methods, from the pen of a successful merchant who has not only been "on the road" but has been book-keeper, buyer and head of a house doing a large trade.
The merchant who stays at home can see how men work on the road.
The book-keeper can learn how his letters and drafts are looked upon by the men he writes to.
The stock clerk can get some points about shipping goods and filling orders.
Those who advertise can learn from one of the best advertisers in the United States.
Actual names of men and houses are given, but not a line in the book has been paid for in any way.
If men were complimented, it was because the author felt that they deserved it, and others are condemned fearlessly.

IT IS A BRAINY BOOK.

Sent, Postpaid, on Receipt of the Price, 75 cents,

PETER WRIGHT'S

SOLID WROUGHT

ANVIL

Made of Best Scrap Iron!

THE BICK FACE AND END ALL IN ONE SOLID PIECE!

The high reputation attained by these Anvils has led makers of an inferior anvil to imitate the brand, with the view of thereby more readily marketing their goods. The trade is cautioned in buying to see that each anvil is stamped with the full trade mark on one side and has the green label affixed to the other; fac-similes of both are shown above.

WORKSHOP RECEIPTS,

FOR MANUFACTURERS, MECHANICS AND SCIENTIFIC AMATEURS.

COMPLETE IN FOUR VOLUMES.

VOL. I. Containing receipts for those interested in mechanical processes.

VOL. II. Devoted mainly to subjects having more or less intimate connection with chemical industries and bearing some relation to each other.

VOL. III. Properties and uses of all the important metals, with a description of the various electrical devices and their application.

VOL. IV. Describing the principal handicrafts—chemical and mechanical. With a general index to the four volumes.

Each volume contains about 450 pages, fully illustrated where necessary, and comprise in compact form an indispensable assistant for every one interested in Mechanics or Chemistry.

PRICE, $2.00 EACH, POSTPAID.

THE SWIFT MILL.

ESTABLISHED 1845.

The annexed cut shows one of the many styles of Coffee Mills of our manufacture, especially adapted to Grocers' use and all retailers of coffee. They are highly ornamental, and workmanship of the very best. We make more than 30 styles.

Lane's Measuring Faucet.

LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

Manufactured by LANE BROS., Poughkeepsie, N. Y.

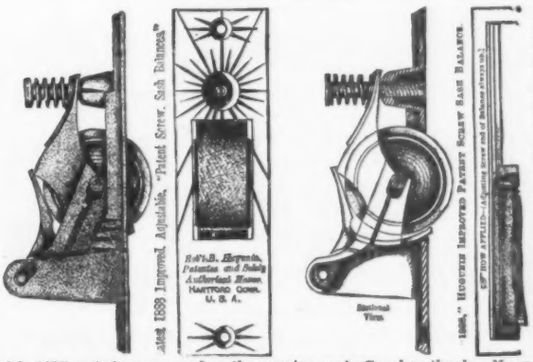
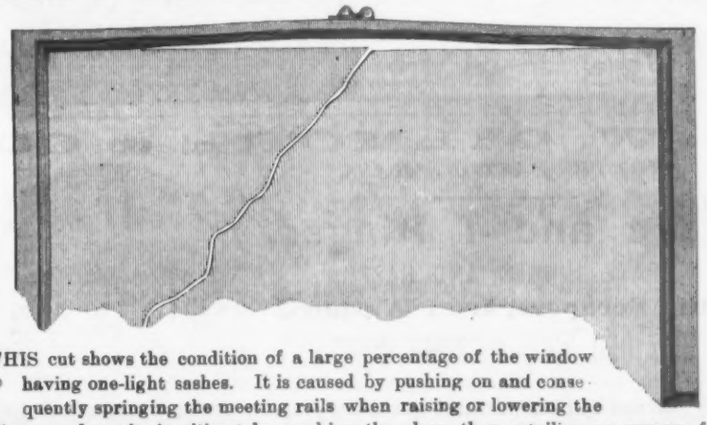
HUGUNIN "SCREW SASH BALANCES."

Positive Dual Mechanism, Roller and Cam.



Reliable, inexpensive, mechanical substitutes for Weights. Easily applied and repaired by any one, ensuring permanence. No attachment to the sash or ribbons used to kink and break or clock springs to rust out and set and throw away. *They are applied to the frame* and work against the unpainted edges of the sash. Prevent rattling and allow the sash to be easily removed for cleaning &c. Prices, small 5/8x1 1/4, 60c. per set of 4; Medium, 1 1/16x1 1/4, 70c. per set of 4; Large, 1 1/2x1 5/8, 90c. per set of 4. Sample sets mailed on receipt of 80c. or $1.00, according to size. Cost applied, less than the additional cost of boxed over the plain frame. Just what is wanted for buildings having no facilities for weights. The latest improved being greatly strengthened, and benefited in their workings are warranted equal to weights for medium or lighter sash, under 20lbs each sash. Beware of a poorly made *fraud imitation of old screw balance*, using the date Nov. 6th, 1877, *a date never used on the genuine*, and *offered on the sly*. Many who have been swindled are replacing with the *genuine*, which have "*Robt. B. Hugunin. Patentee and Solely Authorized Maker*," cast upon them, and by which the *genuine* are instantly known. Spot the *fraud and those who offer you them*, and save future trouble *from infringement*. Get the "1888 *Improved Hugunin Patent Screw Balances*" the only reliable positive power outside of weights for balancing the weight of sash. If not kept by your dealer, order yourself direct from **ROB'T B. HUGUNIN W. F. MFG. CO., Hartford, Conn.**



THIS cut shows the condition of a large percentage of the window having one-light sashes. It is caused by pushing on and consequently springing the meeting rails when raising or lowering the windows, and results in ultimately cracking the glass, thus entailing an expense for repairs greater than the cost of applying Wigger's Patent Sash Lifters. These Sash Lifters obviate this trouble and also prove a great convenience in operating this class of windows, as previously described in the columns of *The Iron Age*.

The steadily increasing demand for these goods proves their utility, and also that both Architects and their Clients appreciate their merits, and that many Architects have specified them on buildings to be completed this fall. We shall be pleased, therefore, to send samples, sample cards and circulars (with blank space for dealers' name), on application, as the goods will be supplied exclusively through the Builders' Hardware Trade.

Carrier's Anti-Friction Steel Barn-Door Hanger.

This hanger is made entirely of Steel (with exception of wheels), which have Steel axles.

The wheels are V shape, thereby preventing any friction, for the reason that the side of the groove cannot touch the track and grind on the edges, as a straight groove would do.

IT CANNOT BE THROWN FROM THE TRACK.

If for any reason the door should be raised, the wheels remain on the track and ready to receive the door when falling back. No oil required—never screeches or grinds, and guaranteed to work easier than any Hanger on the market.

We call special attention to our Double Braced Steel Track (as shown in cut), and which has commended itself to all who have examined its merits, and must become the universal favorite. Can be put up with 1 in. No. 9 screws, each bracket (which are 15 inches apart) sustaining over 1000 lbs. weight, thereby carrying heavy doors with perfect ease.

WILLIAM A. BAEDER. HOWARD R. KERN.

BAEDER FLINT PAPER CO.,

283 Pearl Street, New York.

P. O. Box 2014, New York City.

WORKS, ARLINGTON, N. J

Extract from the "Daily Register," the New York Law Journal, July 7, 1888.

ANDREWS, J.

Baeder et al. v. Baeder et al. (two cases)—After a careful examination of the voluminous papers submitted in these cases I am of the opinion that Baeder, Adamson & Co. branded their second quality of flint paper with the word "Baeders," for the express purpose, and with the effect of inducing the public to purchase such second quality of paper as and for the first quality of the flint paper of the plaintiffs, William A. Baeder and Howard R. Kern; and that the defendant, the Russell & Erwin Mfg. Co. have, knowingly and intentionally, actually sold such second quality paper of Baeder, Adamson & Co. as and for the first quality paper of said William A. Baeder and Howard R. Kern. These acts of Baeder, Adamson & Co., and of the Russell & Erwin Mfg. Co. are clearly unlawful, and the motion to continue until the trial of the action the injunction, heretofore granted by Mr. Justice Barrett, in the action brought against those parties by Baeder & Kern will be granted, with $10 costs. I do not think that the mark used by Baeder & Kern can be considered a simulation of Baeder, Adamson & Co.'s first quality mark, nor that it is intended or calculated to mislead or deceive purchasers into taking Baeder & Kern's Paper as and for the first quality paper of Baeder, Adamson & Co. The motion for an injunction, in the action brought by Baeder, Adamson & Co. ainst William A. Baeder & Kern will be denied, with $10 costs.

WE ARE NOT IN THE COMBINATION.

THE STRONGEST GLUE IN THE WORLD.

2 GOLD MEDALS

AWARDED

LONDON 1883. NEW ORLEANS 1885.

RUSSIA CEMENT CO.

Gloucester, Mass.

SOMETHING NEW

THE PATENT ADJUSTABLE BRUSH.

Our new Patent Can can be carried in the pocket and used without danger of soiling from the can or brush; all superfluous glue is removed on wiper. This style is made in three sizes, half pint, gill and half gill. Our regular cans are half pint, pint, quart, two quart and gallon. Bottles, two sizes as heretofore.

At the New Orleans Exposition (where a Gold Medal was awarded) a piece of Georgia pine butted, one inch square, on a Testing Machine, registered 1620 lbs. before parting.

Does not set quickly like the old style Glues, and has FOUR TIMES the strength.

No Heating required.

No other Glues have the RECORD of 1620 lbs. to the square inch.

The fact that the sales of

LEPAGE'S THE ONLY GENUINE LIQUID GLUE

has greatly increased during the past year, so that we have been unable to manufacture the goods as fast as called for is the best proof that the public appreciates A GOOD THING.

To meet this demand we have recently greatly increased the capacity of our works, and have now the most scientifically arranged glue plant in the world, no expense having been spared which would in any way contribute toward the

ABSOLUTE PERFECTION

of the products.

THE WIDE AWAKE DEALER

is not slow to see that it pays him to keep in stock those goods which are sure of QUICK SALES. Don't be cajoled into buying the various Liquid Glues now in the market for which claims are made that cannot be substantiated.

That the Dealer and Public may be sure that they are not deceived in making their purchases we have commenced putting the autograph below on all the Genuine LePage Glues.

Russia Cement Co.
GLOUCESTER, MASS.

These Glues are used in the Smithsonian Institute, at Washington for all its works of mounting specimens, by the Government Arsenals and Department Buildings, by the Pullman Palace Car Co., Mason & Hamlin Organ and Piano Co., and by thousands of first-class manufacturers and mechanics throughout the world, for all kinds of fine work.

Factory: 32 to 40 Penn St., Brooklyn, E. D., N. Y.

STAR ❋ BRAND ❋ TACKLE ❋ BLOCKS,

For Railways, For Contractors, For Bridge Builders and General Trade.

We would particularly call attention to our

Self-Adjusting Five Roll Roller Bush Blocks

which for strength and durability cannot be equalled by any other make. These Roller Bushed Blocks *give twice the purchase* of the Iron Bushed Blocks, and are far more preferable to use on account of greater ease in hoisting. Try them and find out for yourselves. Call for the "Star Brand" SELF-ADJUSTING FIVE ROLL ROLLER BUSH BLOCKS.

Coes Wrench Co.,

WORCESTER MASS.,

MANUFACTURERS OF

A. G. COES'

PATENT

SCREW WRENCHES,

The Strongest Wrench made, and the only successful re-enforced bar.

The Ferrule is firmly secured in place by a nut screwed on the bar.

Particular attention is called to the way in which the handle is made and fastened to the shank.

This Handle is made better and stronger than heretofore by using our new Cup Tip at the end which encloses the wood and keeps it from splitting. This is the only wrench which has the wood handle firmly secured and held together at each end, and it will stand more rough usage and last longer than any now made. It is not affected heat, cold or moisture.

None Genuine unless Stamped,

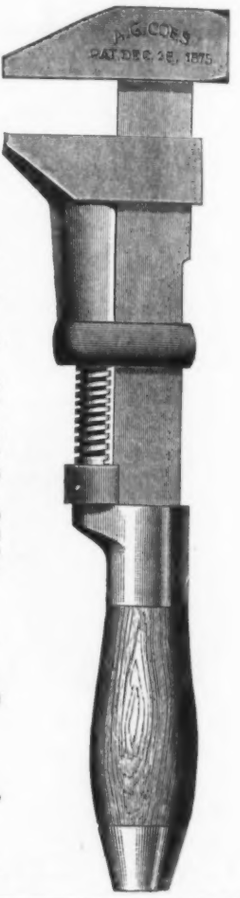
A. G. COES & CO.

Warehouse:

113 Chambers and 95 Reade Sts.,

NEW YORK.

JOHN H. GRAHAM & CO., Agts.



Bemis & Call Hardware & Tool Co.

PATENT COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This Wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PATENT PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

For Circulars and Price List, address

This Wrench can be Furnished with Long Nut or Sleeve.

How to Keep a Store.

By S. H. TERRY.

406 Pages, 5 x 7½ inches.

This book should be in the hands of every one interested in the selling of goods at retail. Among the subjects discussed are: The selection of a business; choice of a locality; buying a stock of goods; examining, marking and arranging goods; how to advertise; employment of clerks; selling for cash and credit; keeping accounts; expenses; copartnerships; losses by fire, theft, &c.; influences of social life on business; buying at auction; investment of profits; insolvency; business qualifications. Every branch of the retail trade is treated upon in a direct, business-like manner. It is a thoroughly practical book for merchants and clerks.

PRICE, $2.50.

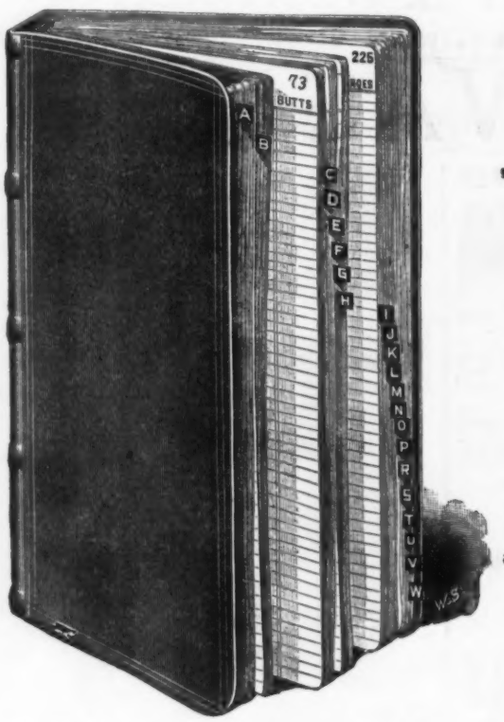
LAMBERSON'S
HARDWARE PRICE BOOKS.



POCKET EDITION,

4 x 7 inches, 250 pages.

BOUND IN LEATHER.

PRICE, · $4.00.

LARGE SIZE,

FOR

OFFICE USE.

6 x 9½ inches, 500 pages.

BOUND IN LEATHER,

PRICE, · $8.00.

THE illustration serves to show the general appearance of the Large Price Book. Dealers who have copies of the first edition will observe that the old classification is abandoned and the alphabetical arrangement adopted in its place. The names of different articles are printed at the upper corner of each page. The index cut on the front edge of the book gives a ready reference to the beginning of each letter, and by turning the corners of the pages any item desired in that division can be very quickly found.

On the first page opened to by the index letter will be found a list of articles beginning with that particular letter, arranged with two spaces after each item for additions of other goods in proper alphabetical order.

Sizes of leading lines are printed, and in case of Rules and Planes comparative numbers are given. Lists are omitted for the obvious reason that they are liable to change, but forms are arranged so that lists may be added with pencil. Useful tables are inserted on Strap Hinges, Nuts, Washers, Wire, Rivets, Stocks and Dies, Rope and Nails. The book is intended primarily for ***Salesmen,*** but it is no less useful to ***Buyers*** or ***Stock*** and ***Entry Clerks,*** and can be adapted to any purpose for which a price book may be desired. The general plan of the Pocket Edition is the same as in the large book, but the ruling and printing are on a smaller scale. The book is small enough to be carried in the pocket without inconvenience, but the arrangement is so perfect that it will cover a very complete line of hardware.

Sent, Charges Prepaid, on Receipt of the Price by

Sash Pulleys.
Empire Portable Forge Co., Cohoes, N. Y.
Palmer Hardware Mfg. Co , Troy, N. Y.

Saws, *Makers of.*
Atkins, E. C. & Co., Indianapolis, Ind.
Blake & Johnson, Waterbury, Ct.
Wheeler, Madden & Clemson Mfg. Co., Middletown, N. Y.

Saw Sets.
Morrill, Chas., 79 Chambers St., N. Y.

Scales, *Manufacturers of.*
Buffalo Scale Co., Buffalo, N. Y.
Chatillon John & Sons, Cliff, N. Y
Howe Scale Co., Rutland, Vt.
Riehlé Bros., Philadelphia.
Troemner, Henry.

Screw Cutting Machinery.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Screw Drivers.
Brown, R. H. & Co., New Haven, Ct.
Kilrich Hdw. Mfg. Co., Plantsville, Conn.
Tower & Lyon, 95 Chambers, N. Y

Screw Plate and Pipe Cutter.
Jarecki Mfg. Co., Erie, Pa.

Screws, *Makers of.*
Wm. H. Haskell Co., Pawtucket.
Miles F. S., 205 Quarry, Philadelphia.
Worcester Machine Screw Co., Worcester, Mass.

Scroll Saws.
Seneca Falls Mfg. Co., Seneca Falls, N. Y
King, O'Connor & Co., Baltimore, Md.

Scythe Stones and Whetstones
A. F. Pike Mfg. Co., Pike Stat'n, N.H.
Cleveland Stone Co., Cleveland, O.
Lake Huron Stone Co., Detroit and Chicago.

Shafting, *Makers of.*
Cresson Geo. V., Philadelphia, Pa.
Pierson & Co 24 to 27 West, N. Y.
Wood, Thos. & Co., Phila., Pa.

Shears, Iron.
E. W. Bliss Co., Brooklyn, N. Y.

Shears and Scissors.
Acme Shear Co., Bridgeport, Conn.
Henry Seymour Cutlery Co., N. Y.
Schollhorn & Co., New Haven, Ct.

Sheep Shears.
Henry Seymour Cutlery Co., N. Y,

Shovels, Spades and Scoops.
Hussey, Binns & Co., Pittsburgh, Pa.

Shutter Worker.
Dodd Shutter Worker Co., 26 Church, N. Y.

Sinks.
Douglas W. & B., Middletown. Conn.

Skates.
Dame, Stoddard & Kendall, Boston, Mass.

Smelting Works.
Reeves Paul S., 760 S. Broad, Phila.

Speaking Tubes.
Ostrander W. R. & Co., N. Y.
Walsh Owen 105 Walker, N.Y.
Wollensak, J. F., Chicago, Ill.

Spelter.
Manning & Squier. 111 Liberty, N. Y.

Sporting Goods.
Shields, Jno. & Co., Brookline, Mass.

Springs.
Dunbar Bros., Bristol, Conn.
Morgan Spring Co., Worcester, Ma
Sabin Machine Co., Montpelier, Vt
Titus & Babcock, Rochester, N. Y.
Tuck Mfg. Co., Brockton, Mass.

Spring Hinges.
Chicago Spring Butt Co., Chicago, Ill.
Stover Mfg. Co., Freeport, Ill.
Union Mfg. Co., 103 Chambers, N. Y.
Van Wagoner & Williams Co., N. Y.

Stamping Works.
Niagara Stamping and Tool Co., Buffalo, N. Y.

Steps.
Torrey J. R. & Co., Worcester, Mass.

Steam Hammers, &c., *Makers of.*
Dieneit & Eisenhardt. Philadelphia.
Dudgeon Richard. 24 Columbia. N. Y.
Duncan W. P. & Co., Bellefonte Pa.

Steam Heating.
Broomell & Sanks, York, Pa

Steam Pumps, &c., *Manufacturers.*
Goulds Mfg. Co., 60 Barclay, N. Y.
Hooker-Colville Steam Pump Co., St. Louis, Mo
Hughes Steam Pump Co.,Cleveland, O.
McGowan John H. & Co., Cincinnati.
Norwalk Iron Wks.Co., So. Norwalk.

Steam Traps.
Aller Amos, 109 Liberty, N. Y.

Steel Figures and Alphabets.
Stutsman J. M., 181 William, N. Y.

Steel Importers.
Abbott Jere & Co., N.Y. & Boston.

Bradley's HEATING FORGES

Established 1832

Pat. Aug. 30, 1887

With a manufacturing experience of over half a century, we recommend these machines to be the best, simplest, most durable and combining all the essential elements.

For hard coal or coke. Indispensable in all shops to keep **Bradley's Cushioned Hammers** and men fully employed and reduces cost of production.

BRADLEY & CO., Syracuse, N. Y.

BRADLEY'S UPRIGHT CUSHIONED HELVE HAMMER

established 1882.

Combines all the best elements essential in a first-class Hammer. Has more good points, does more and better work and costs less for repairs than any other **Hammer** in the **World.**

BRADLEY & CO. Syracuse, N.Y.

GATE CITY STONE FILTER CO.,

46 Murray St., New York.

Open Cut shows Filter Disc used in our Filters, and Separate Patent Ice Chamber.

☞ Fine China and Gray Stone-ware Jars to hold the Water.

☞ A NATURAL STONE for a Filtering Medium.

☞ Fitted with separate Patent Ice Chambers to cool the water.

☞ As easily cleaned as a Water Pitcher.

☞ No objectionable material used in the construction of this Filter

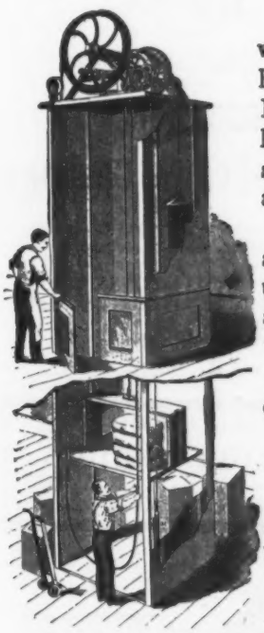
All water is filled with impurities during the rainy season

☞ This Filter will ABSOLUTELY CLEAN IT

Address as above for Descriptive Price List. Mention *The Iron Age.*

THE HUMPHREY PONY HAND ELEVATOR.

(Patent Applied for.)



For light Store and Factory work, Hospitals and Public Buildings. For Trunk and Invalid lifts. For carrying Coal, Flour, Ashes and other heavy substances in Tenements, Flats and Private Dwellings.

So simple in construction, and price so low that it can be used in many places instead of a dumb waiter, and has many times the lifting capacity.

Capacity 500 pounds. Price of fixtures, $36 per set.

We are also manufacturers of the New York Safety Dumb Waiter fixtures, the most complete, simple and absolutely safe Dumb Waiter fixtures ever made.

Send for Descriptive Catalogue.

WEST'S MOULDERS' TEXT BOOK

BEING PART II. OF AMERICAN FOUNDRY PRACTICE,

Giving the best methods and rules for obtaining good castings, with detailed description for making moulds. A thoroughly practical book that should be in the hands of every moulder.

PRICE, - Cloth, - 460 Pages, - - $2.50.

Sent, post-paid, on receipt of price by

DAVID WILLIAMS, Bookseller and Pulisher, 66 and 68 Duane St., New York.

A MAN OF SAMPLES.

Something About the Men he Met "On The Road."

BY WM. H. MAHER.

Should be read by every business man in the country.

It is a book full of keen points about business men and business methods, from the pen of a successful merchant who has not only been "on the road" but has been book-keeper, buyer and head of a house doing a large trade.

The merchant who stays at home can see how men work on the road.

The book-keeper can learn how his letters and drafts are looked upon by the men he writes to.

The stock clerk can get some points about shipping goods and filling orders.

Those who advertise can learn from one of the best advertisers in the United States.

Actual names of men and houses are given, but not a line in the book has been paid for in any way.

If men were complimented, it was because the author felt that they deserved it, and others are condemned fearlessly.

IT IS A BRAINY BOOK.

Sent, postpaid, on receipt of the price, 75 cents, by

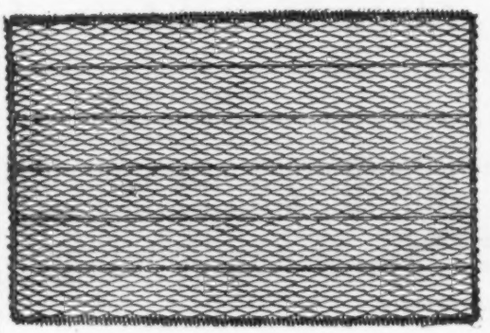
A. W. PARMELEE, Pres't. THE WIRE GOODS CO., WORCESTER, MASS.

The "FLEXIBLE" Steel Wire Mat.



This mat has heretofore been made by THE FLEXIBLE WIRE MAT COMPANIES of Chicago and Cincinnati, and was formerly known as the Stover Mat, proving itself a formidable competitor for public favor. The coil in body of fabric is flattened, thus giving an *increased scraping surface,* and is thoroughly supported by spring steel strips and braces passing from end to end. The close coils at each end render it sufficiently flexible to conform to uneven surfaces, and it is adapted to any place where a mat is required. This is our lowest priced mat, but it will be found entirely satisfactory, and is prefered by some to the other style.

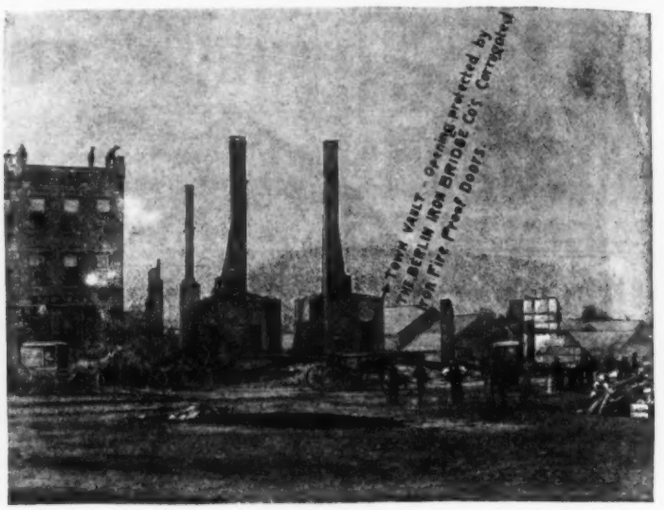
TREATISE UPON CABLE OR ROPE TRACTION, as applied to the working of street and other railways. Revised and enlarged from *Engineering*. London. 4to. By J. BUCHNALL SMITH. $2.50. Sent, postpaid, on receipt of price, by DAVID WILLIAMS, Publisher and Bookseller, 66 & 68 Duane Street, New York.

The Litchfield County Court House before the Fire.



After the Fire

THIS LETTER EXPLAINS IT ALL.

WATERBURY, CONN., August 17, 1888.

THE BERLIN IRON BRIDGE CO., East Berlin, Conn.

Dear Sirs:—I have just returned from Litchfield, Conn., where I examined the ruins of the new Court House. The Court House has been entirely consumed by fire, and nothing is left standing but two chimneys and the two brick vaults which were built to preserve the Town and County Records. The doors on the vaults which were furnished by your Company protected them perfectly. The vaults being new, no records had yet been placed in them, but the inside woodwork and some yellow pine shavings lying on the floor were unscorched. The outside doors are, of course, more or less warped and burned, but the inside vestibule doors are unharmed, the paint not being blistered; in fact, they are in as good condition as when they were put in and will be used again. I have never seen a corrugated iron box door of any kind exposed to so severe a heat as this, and shall have no hesitation hereafter in recommending your Corrugated Iron Doors for fire-proof vaults. I consider this a very severe test, as the building was entirely of wood and very heavily timbered.

Yours, very truly, ROBERT W. HILL, Architect.

Knisely & Miller Bros.,

129 & 131 South Clinton St.

CHICAGO.,

MANUFACTURERS

FOR

ROOFING AND SIDING.

Send for Circular and Prices.

Although sheet steel is, still, more expensive than iron, we have decided to use it exclusively for our Standing Seam, and also for our Roll and Cap Roofings, as we find that the practical advantages to customers in steel are so marked that we are confident its use will so increase our patronage that we will be generously recompensed for using the more expensive material.

Sheet steel is pliable, tough—hence will not crack. There is no cinder or clay in sheet steel, both a fruitful cause of defects in iron.

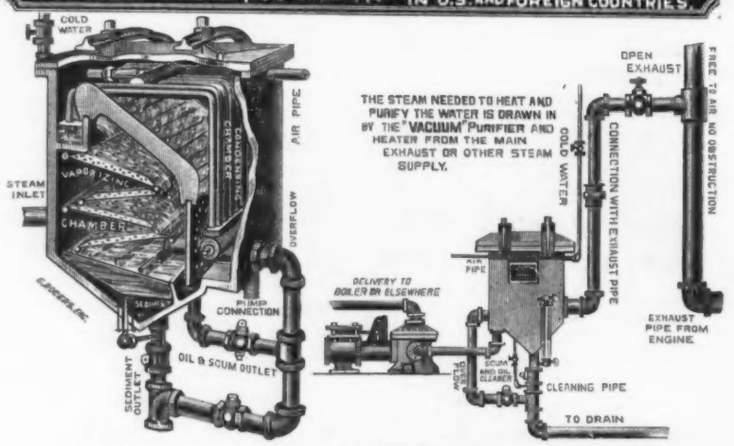
WORKS BUILT COMPLETE.

"WEBSTER'S" VACUUM" FEED WATER HEATER & PURIFIER

TITLE COPYRIGHTED AND REGISTERED MARK PATENTS PENDING IN U.S. AND FOREIGN COUNTRIES.



OPERATES BELOW ATMOSPHERIC PRESSURE,

converting the water to be purified into vapors, and reconverting the vapors back into a liquid state, by the water next entering to be purified, preventing any loss of heat units.

FEEDS PURIFIED WATER TO THE BOILER AT A TEMPERATURE AT OR JUST BELOW THE POINT OF VAPORIZATION, **Preventing Scale, Removing Back Pressure, Increasing Power and Steam. Saving Coal, Water, Labor and Space.**

Can be placed in any position either near by or at any distance from the exhaust.

WEBSTER'S "VACUUM"

Feed Water Heater and Purifier

has received the endorsement and approval of the highest mechanical engineering talent as being thoroughly adapted to the purposes for which it is being introduced.

Duplicate orders have already been received from such well-known firms as the Phœnix Iron Company, Phœnixville, Pa.; Pencoyd Iron Works, Pencoyd, Pa., and New Jersey Steel and Iron Company, Trenton, N. J.

Among others now using **Webster's "Vacuum" Feed Water Heater and Purifier,** to all of whom we refer, we mention Edison Electric Illuminating Co., Lancaster, Pa.; Wissahickon Electric Light Co., Wissahickon, Pa.; Gloucester Electric Light Co., Gloucester, N. J.; Moore & White's Machine Works, Philadelphia; Welde & Thomas Brewery, Philadelphia; Eigenbrats' Brewery, Baltimore; Wm. P. Keeley & Sons' Planing Mill, Phœnixville; Abram Cox Stove Company, Philadelphia, and J. R. Daggers' Roswell Bobbin and Spool Manufactory, Paterson, N. J.

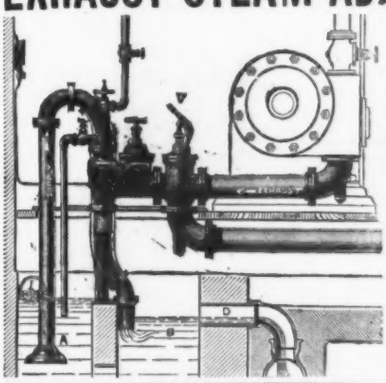
THE KORTING

EXHAUST-STEAM-ADJUSTABLE-CONDENSER,

FOR STEAM ENGINES AND PUMPS



This CONDENSER requires no Tank, no Pump, no Water Column of Thirty-four feet, or Hot Well, nor does it need any Foundation, and there is no continual waste of Steam to operate Air Pumps. It provides for its own Water Supply, whether lifting or from a fall of water. It will lift water Twenty Feet, and when a fall of water is available, only One Foot head is required. The means used to accomplish this is the exhaust Steam Velocity, as it comes from Steam Engine Cylinder. The best results can be obtained without any cost of maintenance. The Price is lower than any other Condenser. There is considerable saving in the use of Steam, an Twenty-five to Thirty per cent. Increase in the Power of Engine.

Several Hundred of these Condensers are now in use.

THE CLERK GAS ENGINE.

Highest Award for Gas Engines at American Institute Fair, New York, 1883.

Makes an ignition at every revolution of the Fly Wheel. Is started with ease, and gives full power immediately. No danger from fire; no extra insurance nor skilled engineer required. Runs perfectly steady; only uses gas when required. Workmanship of the best description and guaranteed. Indicated power considerably larger than in any other Gas Engine of the same size, each Engine giving from 1 H.-P. to 4 H.-P. more than named. Is unsurpassed by any other Gas Engine for running any kind of machinery or electric light, arc or incandescent. Has means for regulating to suit any coal or water gas.

No Boiler, Coal, Ashes or Engineer. Made in Sizes of 4, 8, 10, 15 and 25 H.-P.

HIGH-SPEED POWER TRAVELING CRANES.

We are now prepared to build **High-Speed Power Traveling Cranes** for any capacity of load, any length of runway and any width of span, with one or with two trolleys on the bridge, these trolleys to work either slow or fast, together or independently, in like or in opposite directions, horizontally or vertically, while the bridge can be traversing slow or fast at the same time in either direction. The speeds of bridge on runway are 100 *feet and* 200 *feet per minute;* the speeds of trolleys on bridge are 50 *feet and* 100 *feet per minute;* and there are four hoisting speeds of 5, 10, 20 *and* 40 *feet per minute;* all can be varied quickly without the least shock or jar from zero to maximum or to any intermediate speed. *The load is always automatically sustained, thus avoiding absolutely the great danger and anxiety which are inseparable from the use of those cranes which require the operator to apply the brake.* We have had one of these Cranes of 26 tons capacity in constant use in our foundry for nearly two years, and we offer them with full confidence for the greatest range of service. We invite the correspondence of parties interested in the subject. WM. SELLERS & CO., Incorporated,

July, 1887. Philadelphia, Pa.

THOMAS WOOD & CO.

Twenty-second and Wood Streets, Philadelphia, Pa.

Shafting, Gearing, Self-Oiling Bearings, Friction Pulleys, Elevators.

With Vertical or Horizontal Cylinders for Handling Stock to Top of Stack with One or Two Platforms.

Works, 30th & Chestnut Sts., Phila. Main Office, Bullitt B'ld'g.

New York Office, 18 CORTLANDT STREET.

PATENT PORTABLE
ROPE HOIST.

ONE MAN SUFFICIENT.

The Best Quick Lift Hoist Made.

WILL HOLD A LOAD AT ANY POINT.

Ropes weigh less than chain. Can be used for long or short lifts. Without touching hand rope, the load may be quickly lowered by a slight steady pull on brake cord. Load rope can be pulled up or down by hand instead of pulling on hand rope to raise or lower empty hook. Send for descriptive circulars of specialties.

ENERGY MFG. CO.,

1115 to 1121 S. 15th St., Phila. Pa.

AGENTS:—T. N. MOTLEY, No. 26 Liberty St., N. Y.; WARTON, BAKEWELL & Co., No. 18 Wood St., Pittsburgh, Pa.

TEAL
Portable Hoist.

Pat'd April 8, 1884.

Built with all spur gearing and self-lubricating bearings, giving an easy running, durable machine and requiring but little attention, as once filling the oil nuts will last a long time Holds the load at any point. Empty hook can be quickly raised and lowered by pulling on the lift chain. Hooks made from bar steel. Simple, light, durable, safe.

BELDEN'S
Upright Power Hammer

This Hammer possesses advantages superior to any other in the market. It has neither cylinders, valves nor piston rods, consequently repairs are trifling. It takes up less space, less power to drive, strikes much harder and truer blows than hammers with double the weight of ram.
It can be worked to strike good alternate blows on a 3-inch and ¾-inch bar when a 100-pound hammer is used, and can be used on die work to a far greater advantage than any other hammer known. Manufactured by the

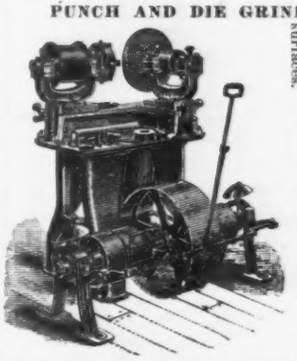
No. 3.—Surface Grinding Machine,

and No. 3 Column with Countershaft and Patent Belt Shifter combined.

A good all-around tool; complete in every detail; surface plate folds back out of the way when not used for surfacing; arranged for on bench or plain columns, with overhead counter, or counter on columns together as shown; 3 sizes; has large sale.

PUNCH AND DIE GRINDER.



This machine is used for grinding punches and dies, such as are used in making Bolts, Rivets, Screws and a large variety of square or circular pieces requiring one or more finished faces. It works equally well on hard steel, chilled iron or softer metals. It can be arranged to grind convex, concave or flat surfaces.

Work can be ground to any desired thickness or several pieces ground to the same thickness.

Valuable Manufacturing Property for Sale.

The real estate and buildings now occupied by the Watertown Steam Engine Co., of Watertown, N. Y., will be offered for sale. The property covers about four acres; has an unfailing water power on the Black River estimated at 225 H.-P. Consists of machine shop, foundry, boiler shop, blacksmith shop, store houses and tenements. The buildings are equipped with line shafting, and could be adapted to a large variety of manufacturing purposes. Moderate cost of labor, combined with low freight rates and nearness to raw material, with an abundant water power, make Watertown an exceptionally good point for manufacturing. It is essentially a manufacturing town.

The property can be divided and sold in parcels if desired. Property is sold because the business has outgrown its present quarters and is to be moved to another location in the same city, where more room is available.

Address WATERTOWN STEAM ENGINE CO., Watertown, N. Y.

FOR RENT.

VALLEY FORGE MILL AND WATER-POWER

With new Dam and Flood Gates,

Situated at Valley Forge, Pa., on the Phila. and Reading Railroad, 23 miles from Phila. The buildings consist of a four-story stone Mill, L shaped, with tin roof, 28 stone Tenant Houses and stone Dry and Dye House. The water-power is known as one of the best in the State. The property was occupied for many years as a Woolen and Cotton Manufactory, but is adapted to general manufacturing purposes.

For particulars, address

J. B. CARTER, Hardware Manfg. Agent,
504 Commerce St. Philadelphia.

FACTORY LOCATIONS.

Correspondence invited from manufacturers seeking new locations, or from parties wishing to engage in manufacturing enterprises.

Full information given regarding the many advantages offered by our city as a manufacturing centre, among them being 16 lines of railroads; coal at 50 cents per ton, &c., &c,

Address,

J. E. CLAREY,
Acting Secretary,
The Commercial Exchange,
Des Moines, Iowa.

FOR SALE.

Half interest in a paying manufacturing establishment, consisting of machine shop, foundry and blacksmith shop, &c. Business now earning good interest on money. Tools in excellent condition. Shops run overtime all spring and summer. This interest is part of an estate, and is to be closed out. Address

J. H. WHITING, Ex.,
Mt. Pleasant, Iowa.

ASSIGNEE'S SALE
—OF—

The Lomas Forge and Bridge Works,

OF CINCINNATI, OHIO.

BY ORDER OF THE PROBATE COURT, the undersigned will receive written proposals up to Monday, October 8, 1888, at 12 M., at the office of the company, No. 217 West Second Street, for the purchase of the above works, consisting of Engine and Boiler, Overhead Travelers and Cranes, Heavy Lifts, Power Presses, Drill Presses, Screw Cutters, Milling Machines, Lathes, Hydraulic Press, Shaping Machines, &c., and all other Machinery, Tools, Fixtures, Office Furniture, Material, Goods on hand, and other personal property belonging to the concern. It is thoroughly equipped for making Bridges, Heavy Forgings, Bridge Nuts, Vises, &c.

Proposals will be received for the whole or any part of the property. This property can be seen at any time on the premises, Nos. 209 to 217 West Second street, and a full inventory found in the office.

Terms of sale—One-third cash and the other balance in six and twelve months, with interest and approved security. All bids subject to the approval of the Probate Court.

THOMPSON C. GILL & CO.,
210 So. Third St., Philadelphia.

FOR SALE.—A COMPLETE RETAIL STOCK OF BUILDERS' HARDWARE AND TOOLS. Store located in a flourishing city of 150,000 inhabitants in the Northwest. Has the largest and best trade in the city; business last year $90,000. Stock will inventory from $30,000 to $35,000. Good reasons given for selling. Address

"MINNESOTA,"
Office of *The Iron Age*, 66-68 Duane Street, N. Y.

FOR SALE.

A thoroughly well assorted jobbing stock of Shelf Hardware, situated in one of the foremost Missouri River cities. Do an annual business of from $300,000 to $400,000 and will increase each year. Jobbing trade alone of the city for 1887 exceeded $10,000,000. Building now occupied is one of the best arranged and equipped for the easy handling of goods in the West. Can give purchaser lease for three to five years at a very reasonable rent. The city enjoys as favorable seabord and distributing freight rates as any in the West. Territory tributary to the city makes volume of business limited only by capital employed. Sellers do not care to dispose of stock before January 1st, 1889, and by that time can reduce same to between $50,000 to $60,000. The business has always been and is now profitable, and sellers will show the very best of reasons for disposing of stock and good will. Such an opportunity rarely presents itself for purchase of a well-established and profitable jobbing business. For further and more detailed particulars, apply to or address

WM. B. FOX & BRO.,
No. 97 Chambers St., New York, N. Y.

FOR SALE.—A good, clean stock of HEAVY AND SHELF HARDWARE Stoves, Tinners' Stock Tools, &c., in one of the best towns in Iowa; 2500 inhabitants. Three railroads; end of division of one. Business established 20 years best corner location in town. Store, 22 x 85 two stories. Warehouse, 22 x 30, two stories in rear. Does a large and paying business, which is increasing; fine point for jobbing. Stock will invoice from $10,000 to $12,000. No trade. Address

W. L. HAY & SON,
Iowa Falls, Iowa

A RARE OPPORTUNITY.—Coke, pig iron furnace, now in blast with 3¼ miles of railroad connecting with trunk line, 2 locomotives and 19 cars; 51 beehive coke ovens, store, dwellings, 75 double and single tenements and all buildings required. 1305 acres all underlaid with superior quality of coking coal, and iron ore bed on 700 acres. Everything in good working order and offered only on account of owner's advanced age. (Folio 3706.) PHILLIPS & WELLS, Tribune Building, New York.

FOR SALE, IN CENTRAL CALIFORNIA.—Intending to retire from active business, I offer for sale my clean and desirable stock of Hardware, Agricultural Implements, Paints, Oils, &c., &c. The business is now and has been a profitable success for more than 20 years. It is located in the delightful climate of Santa Clara County, Cal., which for health, school and social advantages is unequalled in the United States. $10,000 to $12,000 capital required. For further particulars, address "CALIFORNIA," office of *The Iron Age*, 66-68 Duane St., New York.

FOR SALE.—Hardware Store in town of 1000 inhabitants, doing good business; $2500 stock. Good reason for selling.

AGENCIES WANTED.

Two young men, energetic, reliable and good hardwaremen, solicit correspondence with manufacturers wishing to establish agency or branch in Chicago. Would help carry stock of first-class staple line. Address

"H. & G.,"
Office of *The Iron Age*, 95 and 97 Washington street, Chicago.

FOR SALE,
The Business of
W. A. IVES & CO.

Owing to the death of Mr. Ives, who had no partner, his executors offer for sale the above long-established and profitable business.

The factory is situated four miles from New Haven, Conn., where Mr. Ives lived, and the drive is exceptionally agreeable. The property includes two factory buildings and machinery, a large tenement and a good cottage, good water power, steam engine, and the stock finished and in course of manufacture of augers, bits, braces, and kindred tools, many of them patented, and the good will. The works are running full force and time, and are so organized that experience is not essential to a purchaser. Many of the employees own their dwellings, near the factory, and most of them have been connected with it for many years.

Address CHARLES HOLT, Executor, 29 West Twenty-third Street, New York.

$20,000 to $25,000

could be profitably employed in an Iron Manufacturing Business, that has yielded large returns for upwards of a quarter of a century.

Would take either an active or a silent partner.

Full particulars on application.

Address "B,"

Office of *The Iron Age*, 230 South Fourth Street,

Philadelphia, Pa.

We have received orders so far ahead of our highest expectations (especially for the Pederson Ratchet Brace) that we have no doubt unavoidably caused many of our patrons serious inconvenience by being unable to give them the prompt attention we so much wish to bestow. We have, however, this week purchased several duplicate machines, which will now give us an enormous producing capacity, and enable us very soon to complete all of our orders. We trust that those who have kindly favored us with their patronage will bear with us a little while longer; and we can assure them that they will be abundantly paid for waiting. As we expect, from every indication, to be crowded to our utmost for months to come, we solicit orders *in advance*, which, of course, will receive first attention, at the time desired.

We are, very respectfully,

Sept. 1st, 1888. AMERICAN BIT BRACE COMPANY.

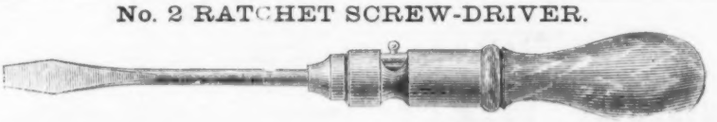
— MAKERS OF —

Special Hardware and Light Metallic Goods from Wire, Sheet Metal or Castings, Rolled Thread Work, Special Screws and Bolts and Light Machinery.

Correspondece solicited. Address as above.

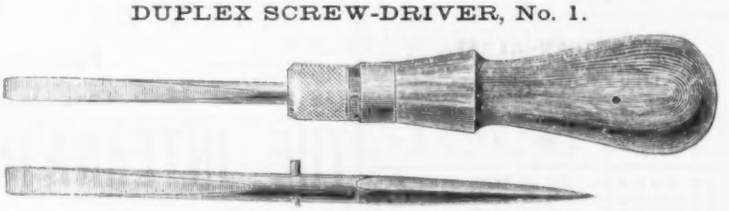
No. 2 RATCHET SCREW-DRIVER.



This is a Single Pall Ratchet Screw-Driver. Like the No. 1, it drives a screw in or out with the ratchet, or may be made stationary. The whole length is eleven inches. The Handle is cocobola, both bit and handle highly polished, and the bit nickel-plated as well as the metal part of the handle.

Price, with one Bit..... $12.00 per dozen.

DUPLEX SCREW-DRIVER, No. 1.



Generally when a Screw-Driver is used, some tool is wanted to make a hole for the screw. This Square Reamer on the reverse end of the driver is better for that purpose than a gimlet or any other tool. The tool can be turned around instantly so as to use either end. It is hand-forged, carefully tempered, polished and nickel-plated. The handle is cocobola polished, with a nickel-plated chuck. This is entirely new, and we judge will be a popular tool.

Price, complete..... $6.00 per dozen.
" for Bits alone to fit Handle..... 1.80 "

MILLERS FALLS CO.,

93 READE ST., NEW YORK.

C. E. Jennings & Co.'s Extra Quality Auger Bits.

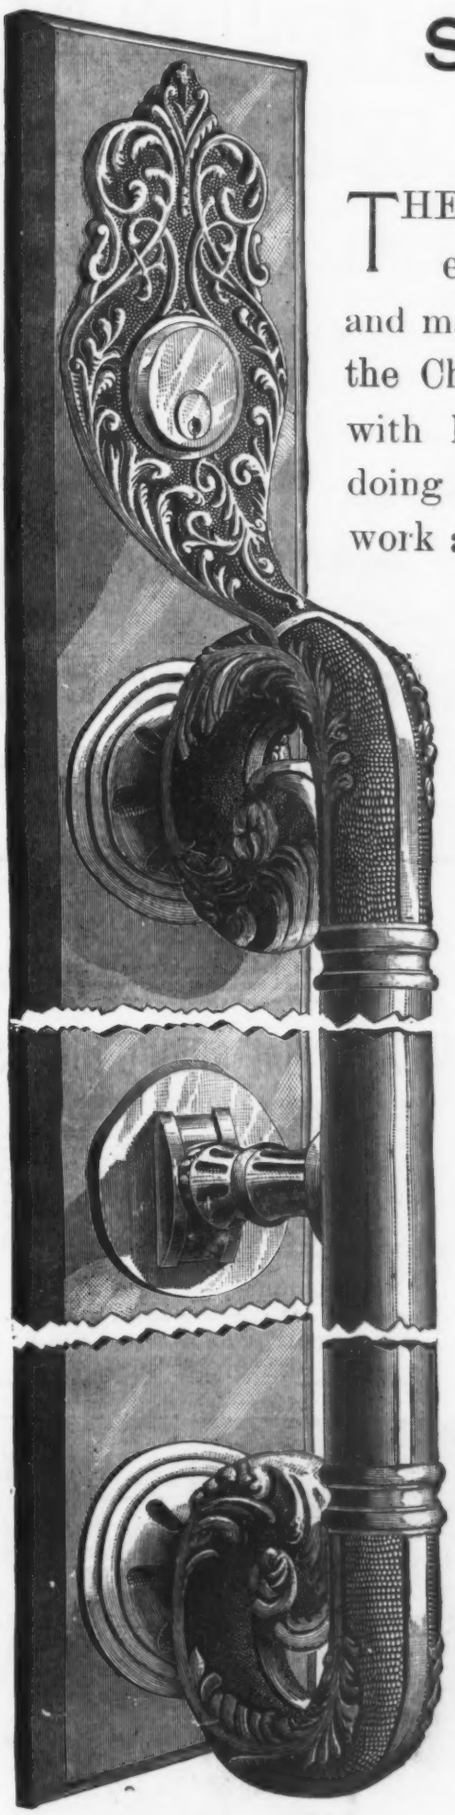
NEW YORK.

VAUGHAN & BUSHNELL MFG. CO.,

— MANUFACTURERS OF —

HARDWARE, TOOLS, &c.,

89 to 95 So. CLINTON ST., CHICAGO.



SPECIAL WORK.

THE illustration shows a Combined Escutcheon and Bar Handle, which was designed and made by us specially for the fine building of the Chicago Board of Trade, which we fitted with hardware throughout. We have been doing a large and increasing amount of special work after architects' designs, or, where desired, we submit designs prepared by our own artists. Hardware dealers or others who are desirous of obtaining hardware suitable for residences or other buildings, of whatever size, will find it to the advantage of themselves and their customers to acquaint us with their wants. We manufacture a very extensive line of Locks and House Trimmings, varying greatly in price, on account of design and finish, but we make nothing except of the Best Material and Workmanship.

We call special attention to our line of Extra Heavy Butts with our Patent Automatic Lubricating Double Steel Bearings.

Address any Office of the Company, as below.

Cistern, Well and Force Pumps, Yard Drive Well, Garden Engine and Steam Boiler Pumps, Hydraulic Rams, &c., and all with the most modern improvements.

UNION SPIRAL SPRING HINGES.

We beg to call the attention of Architects, Builders, Dealers, and all interested parties, to our Spiral Spring Hinge, knowing it to be an effectual and durable one, neat in appearance, easy to put on, and not liable to get on t of order. The Springs are made from wire made expressly for us and for this particular purpose, with the view of great elasticity, durability and power. They produce a continuance pressure from the point where the door is wide open until it is closed, and then hold it perfectly in position. It has a solid pintal in connection with short hollow ones, causing little or no friction, the whole power of the Spring being exerted in swinging the door. It is Fast Joint, and can be used for either right or left hand, allowing the dealer to carry less stock, and the builder will never get the wrong hand.

Bucket Pump and Water Purifier.

FOR WELLS AND CISTERNS OF ANY DEPTH.

Warranted to purify a foul well or cistern in ten days' use. Does not freeze. It has no wooden tubing to wear out, decay and pollute the water; no iron tubing to rust; no suckers or valves to wear out; never has to be *primed, packed or thawed out;* has no *Leather, Rubber* or wood in contact with the water to contaminate it, and you do not have to pump out a pailful of water to get a *fresh, cool drink*, for every cup goes down full of air to the bottom and fills with cold water as the air escapes. A sample pump will be sent to any responsible dealer on 30 days' trial and if not satisfactory in every particular, and found superior to any pump on earth for domestic use, may be returned at our expense. Awarded *gold medal at World's Exposition*, New Orleans, and highest premiums at Alabama [State Fair, St. Louis, Columbus, Iowa, Arkansas, Dayton, Omaha, Macon, Mobile and Cincinnati. An energetic dealer wanted in every town. For terms and discounts address

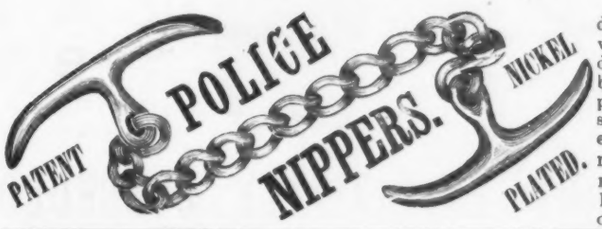
POLICE CHAIN TWISTERS OR NIPPERS.

Under Patent granted to A. P. Baldwin, July 7, 1874.



The attention of the Hardware Trade is called to the decision rendered in my favor in U. S. Circuit Court, So. Dist. of N. Y., Baldwin *vs* J. G. Conway Co., Limited, *et als.*, wherein I prosecuted the defendants for selling Police Chain Twisters or Nippers, manufactured by Bean, of Boston, which are proved to be an infringement on my patent. We therefore warn the Trade and public generally against selling or using such Police Chain Nippers or Twisters, or any others, except those made by Jos. Baldwin & Co., and the improved patterns made by us exclusively for Tower & Lyon, N. Y., who have always respected our claims, and by whom our Police Chain Twisters are kept for sale. All such are stamped with our name or initials. All others are infringements. **JOS. BALDWIN & CO., Newark, N.J.**

PETERS' CARTRIDGES.

THE PERFECTION OF SHOT GUN AMMUNITION.

Loaded by the most rapid, accurate and scientific cartridge loader in existence. Fac-simile of Trade Mark.

Fac-simile of Green Label.

By Royal Letters Patent.

V. R.

PETER WRIGHT'S

SOLID WROUGHT

ANVIL

Made of Best Scrap Iron!

THE BICK FACE AND END ALL IN ONE SOLID PIECE!

The high reputation attained by these Anvils has led makers of an inferior anvil to imitate the brand, with the view of thereby more readily marketing their goods. The trade is cautioned in buying to see that each anvil is stamped with the full trade mark on one side and has the green label affixed to the other; fac-similes of both are shown above.

Warranted Better than the Best

ENGLISH ANVIL

Face in one piece of BEST TOOL CAST STEEL, PERFECTLY WELDED, perfectly true, of hardest temper, and never to come off or "settle." Horn of tough *untempered steel*, never to break or bend. *Only Anvil made in United States fully warranted as above.*

FISHER DOUBLE-SCREW VISE

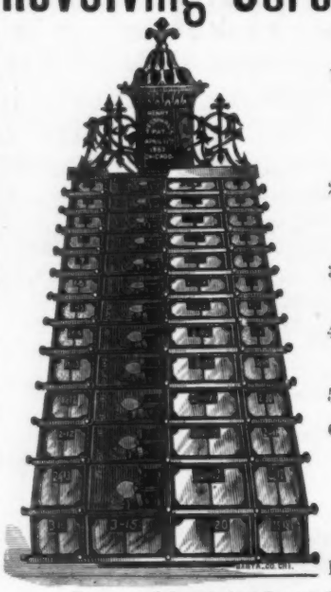
WESTPHAL'S IMPROVED

Revolving Screw Bolt & Shot Cases.



Advantages in Using.

1st—It is impossible to mix the different sizes of screws, bolts or shot. This is *a very important point*, and cannot be claimed in any other construction for holding these goods.

2nd—Only those behind the counter have access to the contents of the cases, thus preventing customers from helping themselves.

3rd—The condition and amount of stock is shown at a glance.

4th—They will save much space and many feet of shelving in any store.

5th—Any size can be found instantly.

6th—In addition to their great usefulness, they will ornament the counters of any store, for in these cases, utility, strength and beauty are combined.

Those who have used them say they would not part with them for many times their cost.

Improved Revolving Screw Case. Made Entirely From Iron and Glass.

SEND FOR ILLUSTRATED CIRCULARS.

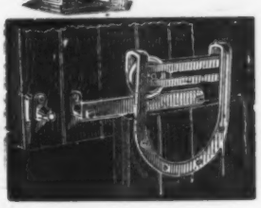
THE SWIFT MILL.

ESTABLISHED 1845.

The annexed cut shows one of the many styles of Coffee Mills of our manufacture, especially adapted to Grocers' use and all retailers of coffee. They are highly ornamental, and workmanship of the very best. We make more than 30 styles.

Lane's Measuring Faucet.



LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

WIGGER'S

PATENT SASH LIFTERS

A simple contrivance designed to facilitate the Raising and Lowering of

ONE-LIGHT SASHES.

Nearly all modern buildings are constructed with single-light sashes, the raising and lowering of which is attended with difficulty.

The adjustment of the lower sash is especially inconvenient when screens are used.

These Sash Lifters will be found indispensable in overcoming this constant annoyance.

Latching is facilitated, window sticks and hooks done away with, springing the sash and loosening the glass prevented, &c.

Made of a strip of concave-convex metal, with knobs pressed up, and fitting over the bead on the side rail of sashes.

Made in any size from 28 to 44 inches in length.

Sample Cards, Price Lists and Circulars on Application.

BRAINERD & CO., Manufacturers' Agents,

THE STRONGEST GLUE IN THE WORLD.

2 GOLD MEDALS AWARDED LONDON 1883. NEW ORLEANS 1885.

RUSSIA CEMENT CO. Gloucester, Mass.

SOMETHING NEW

THE PATENT ADJUSTABLE BRUSH.

Our new Patent Can can be carried in the pocket and used without danger of soiling from the can or brush; all superfluous glue is removed on wiper. This style is made in three sizes, half pint, gill and half gill. Our regular cans are half pint, pint, quart, two quart and gallon. Bottles, two sizes as heretofore.

At the New Orleans Exposition (where a Gold Medal was awarded) a piece of Georgia pine butted, one inch square, on a Testing Machine, registered 1620 lbs. before parting.

Does not set quickly like the old style Glues, and has FOUR TIMES the strength.

No Heating required.

No other Glues have the RECORD of 1620 lbs. to the square inch.

The fact that the sales of

LEPAGE'S THE ONLY GENUINE LIQUID GLUE

has greatly increased during the past year, so that we have been unable to manufacture the goods as fast as called for is the best proof that the public appreciates A GOOD THING.

To meet this demand we have recently greatly increased the capacity of our works, and have now the most scientifically arranged glue plant in the world, no expense having been spared which would in any way contribute toward the ABSOLUTE PERFECTION of the products.

THE WIDE AWAKE DEALER is not slow to see that it pays him to keep in stock those goods which are sure of QUICK SALES. Don't be cajoled into buying the various Liquid Glues now in the market for which claims are made that cannot be substantiated.

That the Dealer and Public may be sure that they are not deceived in making their purchases we have commenced putting the autograph below on all the Genuine LePage Glues.

Russia Cement Co.
GLOUCESTER, MASS.

These Glues are used in the Smithsonian Institute, at Washington for all its works of mounting specimens, by the Government Arsenals and Department Buildings, by the Pullman Palace Car Co., Mason & Hamlin Organ and Piano Co., and by thousands of first-class manufacturers and mechanics throughout the world, for all kinds of fine work.

MANUFACTURED ONLY BY THE

Coes Wrench Co.,

WORCESTER MASS.,

MANUFACTURERS OF

A. G. COES'

PATENT

SCREW WRENCHES,

The Strongest Wrench made, and the only successful re-enforced bar.

The Ferrule is firmly secured in place by a nut screwed on the bar.

Particular attention is called to the way in which the handle is made and fastened to the shank.

This Handle is made better and stronger than heretofore by using our new Cup Tip at the end which encloses the wood and keeps it from splitting. This is the only wrench which has the wood handle firmly secured and held together at each end, and it will stand more rough usage and last longer thar any now made. It is not affected heat, cold or moisture.

None Genuine unless Stamped,

HAMMER & CO., Branford, Conn.

Bemis & Call Hardware & Tool Co.

PATENT COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This Wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

This Wrench can be Furnished with Long Nut or Sleeve.

No. 3 PATENT PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

"RIVAL"

PATENT

Lawn Sprinkler.

Cheapest and Best in Use.

The Spray from it covers upwards of 1000 *sq. feet of lawn.* It is the only patent adjustable Sprinkler which is adaptable to any water pressure, being made of brass, and having no revolving parts to wear out, or mall openings to clog up it can be operated with sandy or muddy water as well as clear, and will last for years. To operate, screw Sprinkler on end of hose, stick the rod into the ground in a vertical position, adjust the acorn to suit pressure and spray wanted and it is ready for use. It may be so regulated as to throw a spray *as coarse as rain* or *as fine as mist*, and will make one of the most beautiful fountains imaginable. It is unequaled in merit, requires no attention and is sold at a less price than any sprinkler in the market. Remember, the RIVAL is the only Sprinkler made by which the coarseness of the spray and the area to be wet can be regulated. They are packed 1 doz. in a box, and finished either plain or nickel plated.

THE ROYAL DAUBER.

WITH MUD SCRAPER ATTACHED

Patented April 26, and September 27, 1887.

An entirely new thing in Blacking Brushes, consisting solely of TINNED MALLEABLE IRON and PURE BRISTLES. **SOLID, ROUND-FACED, INDESTRUCTIBLE.**

SOLID.—Not bored and drawn, nor secured with pitch or cement. Not several small knots, but ONE SOLID KNOT OF PURE BRISTLES. NO HORSEHAIR.

ROUND-FACED.—Takes Blacking from the box on its centre instead of its edges, and will therefore spread it evener, smoother and thinner, ensuring a better polish than any flat-faced brush.

INDESTRUCTIBLE.—Because the only materials used are tin-coated iron and bristles, put together to stay, the knot of bristles being held IN ONE SOLID MASS, BY COMPRESSION, IN A GRIP OF IRON, and fastened with an iron rivet. Warranted not to "spread" or "clog" with blacking.

WILL OUTLAST A DOZEN OF ANY OTHER KIND.

This DAUBING BRUSH is made WITH A SCRAPER FOR REMOVING MUD FROM THE CREVICES OF THE SHOES. The utility of this is too apparent to need a word of commendation.

PEABODY & PARKS, MFRS., TROY, N. Y.

RICHMOND CHAMPION

Section Self-Feed Cutter!

Eight Reasons Why it is the best Box for the Purchaser to Buy.

1. It is a Self-Feed Box.
2. It is a Section Knife Box.
3. In case of breakage, any part can be renewed at the actual expense of the section broken.
4. It will cut Hay, Oats and Corn-Stalks with rapidity and ease.
5. It will cut it at any length the operator may desire.
6. It has a greater capacity, having 11 inch throat, than any Box of its size.
7. It works easier for the operator.
8. It is less liable to get out of order, and has less machinery, and therefore the best for the consumer to buy.

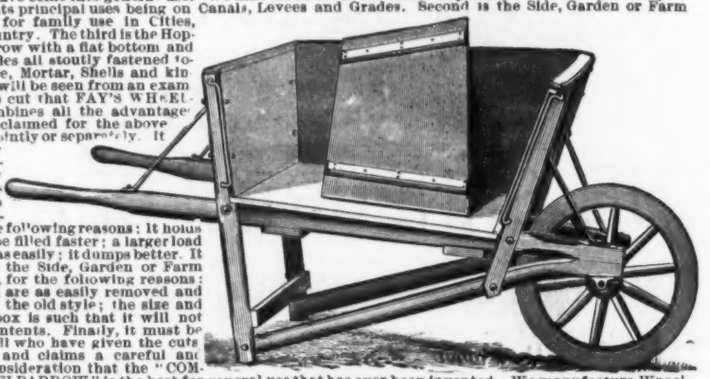
MIKE'S WHETSTONES ARE THE BEST.

FAY'S COMBINED TRAY AND SIDE, BRACED AND BOLTED WHEELBARROW.

Classifying Wheelbarrows from the shape of that part which holds the load, there have been but three kinds which have come into general use. We may mention as the most important the Railroad, Dump or Tray Barrow, its principal uses being on Canals, Levees and Grades. Second is the Side, Garden or Farm Wheelbarrow for family use in Cities, Towns and Country. The third is the Hopper Wheelbarrow with a flat bottom and four flaring sides all stoutly fastened together, for Ore, Mortar, Shells and kindred uses. It will be seen from an examination of the cut that FAY'S WHEELBARROW combines all the advantages that may be claimed for the above styles, either jointly or separately. It has a larger range of usefulness than any of the old styles. It is superior to the tray wheelbarrow for the following reasons: It holds more; it can be filled faster; a larger load can be moved as easily; it dumps better. It is superior to the Side, Garden or Farm Wheelbarrow, for the following reasons: Its sideboards are as easily removed and replaced as in the old style; the size and shape of the box is such that it will not scatter the contents. Finally, it must be apparent to all who have given the cuts explanations and claims a careful and thoughtful consideration that the "COMBINED WHEELBARROW" is the best for general use that has ever been invented. We manufacture Wheelbarrows of every description. If you are interested, we shall be pleased to send you our complete Catalogue and quote you prices.



THE BRYAN MFG. CO. Bryan Ohio.

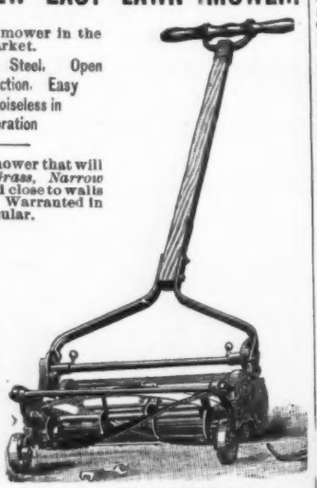
THE NEW EASY LAWN MOWER.

The leading mower in the market.

Front Cut. Steel. Open Roller Traction. Easy and Noiseless in Operation

The only mower that will cut *Wet Grass, Narrow Borders*, and close to walls and fences. Warranted in every particular.

Manufactured by **BLAIR MFG. CO.,** Springfield, Mass.



MEDIUM SIZE "NEW EASY."

THIS unique cooking utensil is made from a single piece of the finest cleaned and cold rolled iron, without rivets. The handle is reinforced with a tinned iron cover, which is hollow, ventilated and keeps always cool. For sale by all jobbers in Hardware and Tinners' Stock in the United States and Canada.

THE EON FENCE POST

is composed of an Asphaltic Concrete Base and a Rolled Trigonal Steel Bar, and can be manufactured at a minimum cost so as to compete with Wood Posts.

I have the foundation patent on machine for pressing plastic material on to a post or bar for forming a base. Also patent on the article and method of manufacture.

Not having the necessary capital and facilities for manufacturing, I desire to place it in the hands of responsible parties on a royalty who will manufacture and sell the post.

Correspondence solicited, and Circulars giving full information on application.

Leng John S., Fletcher, N. Y.

Tumbling Barrels.
Henderson Bros., Waterbury, Conn

Turnbuckles.
Cleveland City Forge and Iron Co., Cleveland, O.
Merrill Bros., Brooklyn, E. D.

Twist Drills, *Makers of.*
Cleveland Twist Drill Co., Cleveland.
Morse Twist Drill & Machine Co., New Bedford, Mass.
Standard Tool Co., Cleveland.

Valves, Gas, Water and Steam.
Chapman Valve Mfg. Co., Boston.
Leng John S., 4 Fletcher, N. Y.
Ludlow Valve Mfg. Co., Troy, N. Y.
McNab & Harlin Mfg. Co., N. Y.

Vises.
Howard Iron Works, Buffalo, N. Y.
Prentiss Vise Co., 83 Dey, N. Y.

Vulcanized Fibre.
Vulcanized Fibre Co., 14 Dey St., N. Y.

Wagon Jacks.
Boston & Lockport Block Co., Boston Mass., and Lockport, N. Y.

Washers.
Lanman, E. B., Columbus, O.
Mason Iron Co., Philadelphia, Pa.

Washing Machines.
Wayne, Anthony, Mfg.Co., Fort Wayne Ind.

Water Filters.
Gate City Stone Filter Co., 46 Murray street, New York.

Weather Strips.
Bosley, D. W. & Co., Chicago.

Well Machinery.
American Well Works, Peoria, Ill.
Goulds & Austin, Chicago, Ill.

Wheelbarrows.
Bryan Mfg. Co., Bryan, O.
Fogsley & Chapman, 8 Liberty, N Y

Wheels.
Quincy Metal Wheel Co., Quincy, Ills.
I. A. Weston & Co., Syracuse, N. Y

Whiffletree Hooks,
Head's Iron Foundry, Utica, N. Y.

White Lead.
Atlantic White Lead and Linseed Oil Co., 287 Pearl, N. Y.
Lewis John T. & Bros., Phil.

Window Cord, *Makers of*
Samson Cordage Works, Boston Mass.

Window Screens.
Darby, Edw. & Sons, Philada., Pa
Queen Anne Screen Co., Burlington Vt.

Wire, *Manufacturers of.*
Cary & Moen, 234 W. 29th, N. Y.
Emmons, F. R. & Bro., 21 Warren St., N. Y.
Gautier Steel Department of Cambria Iron Co., Johnstown, Pa.
Hartman Steel Co., Ltd, Pittsburgh, Pa
Howard & Morse, 45 Fulton, N. Y.
Leicester Wire Co., Leicester, Mass.
Palmer Wire Mfg. Co., Palmer, Mass.
Prentiss Geo. W. & Co., Holyoke.
Salem Wire Nail Co., Salem, O.
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg. Co., Worcester.
Worcester Wire Co., Worcester, Mass.

Wire Cloth.
Clinton Wire Cloth Co., Clinton, Mass.
Darby Edward & Sons, Philadelphia.
Estey W. S., 71 Fulton, N. Y.
Howard & Morse, 45 Fulton, N. Y.
Wickwire Bros., Cortland, N. Y.
W. S. Tyler Wire Works Co., Clev'd.

Wire Cutters.
King, J. M. & Co., Watertown, N. Y

Wire Door Mats.
Barnum E. T, Detroit, Mich.

Wire Fences.
Howard & Morse, 45 Fulton, N. Y.

Wire Goods, *Manufacturers of*
Brooks M. S. & Sons, Chester, Conn.
Darby, Edward & Sons, Phila.
Gilbert & Bennett Mfg. Co., N. Y.
Hollow Cable Mfg. Co., Hornellsville
Howard & Morse, 45 Fulton, N. Y.
Knapp Bros., New York.
E. Jenckes Mfg. Co., Pawtucket, R. I.
Ludlow-Saylor Wire Co., St. Louis.
Wire Goods Co., Worcester.
Wickwire Bros., Cortland, N. Y.

Wire Machinery.
Adt John & Son, New Haven, Conn.

Wire Nail and Tack Machines.
Sweetser, W. A., Brockton, Mass.

Wire Nails.
American Tack Co., Fairhaven.
Birmingham Wire Nail Co., Birmingham, Ct.
Cammet Iron & Steel Co., Chicago, Ills.
Dunbar, Hobart & Co., 39 Warren, N. Y
Field A. & Sons, Taunton, Mass.
Hartman Steel Co. Ltd., Pittsburgh Pa.
Phillips E. & Sons, South Hanover.
Philips, Townsend & Co., Phil., Pa
Pittsburgh Wire Nail Co., Pittsburgh, Pa.
Plymouth Mills, Plymouth, Mass.
Salem Wire Nail Co., Salem, O.
Wire Goods Co., Worcester.
Trufant W. E., Whitman, Mass.
Whitney A. R. & Co., New York City.

Wire Rods, Steel.
Whitney A. R. & Co., N. Y.

Wire Rope, Iron and Steel. *Makers.*
Broderick & Bascom, St. Louis, Mo.
Hazard Mfg. Co., Wilkesbarre, Pa.
A. Leschen & Sons Rope Co., St. Louis, Mo.
Upson, Walton & Co., Cleveland, O.
Washburn & Moen Mfg. Co., Worcester, Mass.
Williamsport Wire Rope Co., Williamsport, Pa.

Wood Engravers and Electrotypers.
Mugford A., Hartford, Conn.

Woodenware.
Tucker & Dorsey Mfg. Co., Indianapolis, Ind.
Udell Woodenware Works, Indianapolis, Ind.

Wood Working Machinery.
Seneca Falls Mfg. Co., Seneca Fall N. Y.

Wrenches, *Manufacturers of.*
Bemis & Call Hardware & Tool Co Springfield, Mass.
Billings Spencer & Co., Hartford Conn.
Coes Wrench Co , Worcester, Mass.
Tower & Lyon, 95 Chambers, N. Y
Utility Wrench Co , N. Y.
Williams, J. H., Brooklyn, N. Y.

Wrench Jaws.
Atwater, H. W., E. Orange N. J.

Wringers.
Empire Wringer Co., Auburn, N. Y

Bradley's HEATING FORGES

Established 1832

Pat. Aug. 30, 1887

With a manufacturing experience of over half a century, we recommend these machines to be the best, simplest, most durable and combining all the essential elements.

For hard coal or coke. Indispensable in all shops to keep **Bradley's Cushioned Hammers** and men fully employed and reduces cost of production.

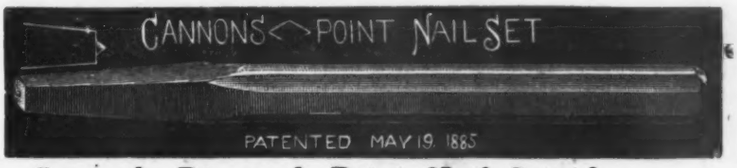
BRADLEY & CO., Syracuse, N. Y.

BRADLEY'S UPRIGHT CUSHIONED HELVE HAMMER

established 1882.

Combines all the best elements essential in a first-class Hammer. Has more good points, does more and better work and costs less for repairs than ...y other **Hammer** in the **World.**

BRADLEY & CO. Syracuse, N.Y.



Cannon's Diamond Point Nail Sets have now been on the market long enough to prove true the many merits we claim for them, and they are to-day the best known, the most largely used, and universally popular Nail Set ever made. They can be bought from all Jobbers in Hardware in the United States, and are also sold in Canada, England, Germany, Australia, New Zealand and Mexico. For catalogue and price address the manufacturers,

THE EDWARD STORM SPRING CO., Limited,
Poughkeepsie, N. Y.
or, JOHN H. GRAHAM & CO., Sole Mf'rs Agents,
113 Chambers St., New York.

WEST'S MOULDERS' TEXT BOOK

BEING PART II. OF AMERICAN FOUNDRY PRACTICE,

Giving the best methods and rules for obtaining good castings, with detailed description for making moulds. A thoroughly practical book that should be in the hands of every moulder.

PRICE, - Cloth, - 460 Pages, - - $2.50.

Sent, post-paid, on receipt of price by

DAVID WILLIAMS, Bookseller and Publisher, 66 and 68 Duane St., New York.

A MAN OF SAMPLES.

Something About the Men he Met "On The Road."

BY WM. H. MAHER.

Should be read by every business man in the country.

It is a book full of keen points about business men and business methods, from the pen of a successful merchant who has not only been "on the road" but has been book-keeper, buyer and head of a house doing a large trade.

The merchant who stays at home can see how men work on the road.

The book-keeper can learn how his letters and drafts are looked upon by the men he writes to.

The stock clerk can get some points about shipping goods and filling orders.

Those who advertise can learn from one of the best advertisers in the United States.

Actual names of men and houses are given, but not a line in the book has been paid for in any way.

If men were complimented, it was because the author felt that they deserved it, and others are condemned fearlessly.

IT IS A BRAINY BOOK.

Sent, postpaid, on receipt of the price, 75 cents, by

PENNSYLVANIA FRUIT PICKER.

Patented June 28th, 1868; July 3d, 1875; May 10th, 1881.

This cut almost speaks for itself.—The device being so much like the human hand, shows at once the utility of the article. As a Fruit Picker it has no superior. It is made of heavy Galvanized Wire, and easily adjusted to a pole. Mark the low price at which it is sold. Price per dozen, $6.00.

Liberal Discount to the trade.

It will gather Apples, Pears, Peaches, Plums, etc.

Sole Manufacturers,

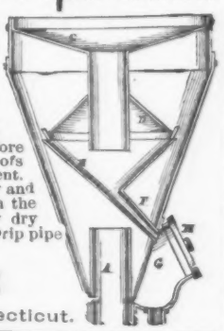
LYMAN
Steam Condensing Exhaust Pipe Head

For the protection of Roofs and Walls of Buildings from the Hot and Greasy Condensation emitted from Exhaust Pipes.



The water of Condensation from Exhaust Pipes of Steam Engines when discharged above roofs and alongside of walls will, in a short time, cause considerable damage in the rotting of roofs and also wash away the mortar in brick walls, as the condensation is always hot and therefore very destructive. This Exhaust Pipe Head will effectually keep the roofs and walls entirely dry and avoid the repairs on roofs formerly so frequent. Another advantage in the use of this Head is in protecting the passers-by and sidewalks from a shower of greasy water which invariably happens when the exhaust pipe is exposed near the street. The escape steam is perfectly dry and noiseless, and there is no back pressure on the Exhaust pipe. The Drip pipe conveys away the condensation wherever desired. Send for Circulars.

THE CLERK GAS ENGINE.

Highest Award for Gas Engines at American Institute Fair, New York, 1883.

Makes an ignition at every revolution of the Fly Wheel. Is started with ease, and gives full power immediately. No danger from fire; no extra insurance nor skilled engineer required. Runs perfectly steady, only uses gas when required. Workmanship of the best description and guaranteed. Indicated power considerably larger than in any other Gas Engine of the same size, each Engine giving from 1 H.-P. to 4 H.-P. more than named. Is unsurpassed by any other Gas Engine for running any kind of machinery or electric light, arc or incandescent. Has means for regulating to suit any coal or water gas.

No Boiler, Coal, Ashes or Engineer. Made in Sizes of 4, 8, 10, 15 and 25 H.-P.

THE CLERK GAS ENGINE CO., 1012-1016 Filbert St., Philadelphia

Branch Offices: 142 Chambers St., New York; 4 West 14th St., New York; 76 Dearborn St., Chicago.

LOCKPORT IMPROVED WAGON JACK

The Neatest, Lightest, Strongest, Most Compact and Cheapest Wagon Jack now in the Market.

MADE ENTIRELY OF METAL, EXCEPT THE HANDLE. THE TUBE IS WROUGHT IRON PIPE; THE LIFTING-ROD STEEL, AND THE CASTINGS GREY IRON. THE STEEL LIFTING-ROD IS ADJUSTABLE IN HEIGHT AND IS HELD BY A FRICTION CLUTCH, OPERATED BY A POWERFUL COMPOUND LEVER.

In Size, General Appearance, and Ease of Operation, in Comparison with its Power

IT IS UNEQUALED.

HIGH-SPEED POWER TRAVELING CRANES.

We are now prepared to build **High-Speed Power Traveling Cranes** for any capacity of load, any length of runway and any width of span, with one or with two trolleys on the bridge, these trolleys to work either slow or fast, together or independently, in like or in opposite directions, horizontally or vertically, while the bridge can be traversing slow or fast at the same time in either direction. The speeds of bridge on runway are 100 *feet and* 200 *feet per minute;* the speeds of trolleys on bridge are 50 *feet and* 100 *feet per minute;* and there are four hoisting speeds of 5, 10, 20 *and* 40 *feet per minute;* all can be varied quickly without the least shock or jar from zero to maximum or to any intermediate speed. *The load is always automatically sustained, thus avoiding absolutely the great danger and anxiety which are inseparable from the use of those cranes which require the operator to apply the brake.* We have had one of these Cranes of 26 tons capacity in constant use in our foundry for nearly two years, and we offer them with full confidence for the greatest range of service. We invite the correspondence of parties interested in the subject.

BELDEN'S
Upright Power Hammer.

This Hammer possesses advantages superior to any in the market. It has neither cylinder, valve nor piston rods, consequently repairs are trifling. It takes up no space, less power to drive, strikes much harder and truer blows than hammers with double the weight of ram.

It can be worked to strike good alternate blows on a 3-inch and ¾-inch bar when a 100-pound hammer is used, and can be used on die work to a far greater advantage than any other hammer known. Manufactured by the

ASSIGNEE'S SALE

—OF—

The Lomas Forge and Bridge Works,

OF CINCINNATI, OHIO.

BY ORDER OF THE PROBATE COURT, the undersigned will receive written proposals up to Monday, October 8, 1888, at 12 M., at the office of the company, No. 217 West Second Street, for the purchase of the above works, consisting of Engine and Boiler, Overhead Travelers and Cranes, Heavy Lifts, Power Presses, Drill Presses, Screw Cutters, Milling Machines, Lathes, Hydraulic Press, Shaping Machines, &c., and all other Machinery, Tools, Fixtures, Office Furniture, Material, Goods on hand, and other personal property belonging to the concern. It is thoroughly equipped for making Bridges, Heavy Forgings, Bridge Nuts, Vises, &c.

Proposals will be received for the whole or any part of the property. This property can be seen at any time on the premises, Nos. 209 to 217 West Second street, and a full inventory found in the office.

Terms of sale—One-third cash and the other balance in six and twelve months, with interest and approved security. All bids subject to the approval of the Probate Court.

CHARLES ANDERSON, Assignee.
John W. Herron, Attorney.

Valuable Manufacturing Property for Sale.

The real estate and buildings now occupied by the Watertown Steam Engine Co., of Watertown, N. Y., will be offered for sale. The property covers about four acres; has an unfailing water power on the Black River estimated at 225 H.-P. Consists of machine shop, foundry, boiler shop, blacksmith shop, store houses and tenements. The buildings are equipped with line shafting, and could be adapted to a large variety of manufacturing purposes. Moderate cost of labor, combined with low freight rates and nearness to raw material, with an abundant water power, make Watertown an exceptionally good point for manufacturing. It is essentially a manufacturing town.

The property can be divided and sold in parcels if desired. Property is sold because the business has outgrown its present quarters and is to be moved to another location in the same city, where more room is available.

Address WATERTOWN STEAM ENGINE CO., Watertown, N. Y.

FOR RENT.

VALLEY FORGE MILL AND WATER-POWER

With new Dam and Flood Gates,

Situated at Valley Forge, Pa., on the Phila. and Reading Railroad, 23 miles from Phila. The buildings consist of a four-story stone Mill, L shaped, with tin roof, 28 stone Tenant Houses and stone Dry and Dye House. The water-power is known as one of the best in the State. The property was occupied for many years as a Woolen and Cotton Manufactory, but is adapted to general manufacturing purposes.

For particulars, address

J. B. CARTER, Hardware Manfg. Agent,
504 Commerce St. Philadelphia.

Factories Wanted!

The Commcial Exchange (Business Men's Association) of Des Moines, Iowa, invites correspondence from parties seeking new location, or wishing to engage in manufacturing. Full information regarding a city of 45,000 people, 16 railroads, coal at 50 cents per ton, and many other advantages destined to make it the leading industrial center west of Chicago. Young men especially are asked to address

J. E. CLARY, Secretary, Des Moines, Iowa.

FOR SALE.

Half interest in a paying manufacturing establishment, consisting of machine shop, foundry and blacksmith shop, &c. Business now earning good interest on money. Tools in excellent condition. Shops run overtime all spring and summer. This interest is part of an estate, and is to be closed out. Address

J. H. WHITING, Ex.,
Mt. Pleasant, Iowa.

A RARE OPPORTUNITY.—Coke, pig iron furnace, now in blast with 3¼ miles of railroad connecting with trunk line, 2 locomotives and 19 cars; 51 beehive coke ovens, store, dwellings, 75 double and single tenements and all buildings required. 1305 acres all underlaid with superior quality of coking coal, and iron ore bed on 700 acres. Everything in good working order and offered only on account of owner's advanced age. (Folio 3706.) PHILLIPS & WELLS, Tribune Building, New York.

FOR SALE.

At less than half first cost, a Delamater Duplex 16 in. x 36 in. Compressor, in thoroughly good working order. Address

L. C. BIERWIRTH, Sec'y, Dover, New Jersey.

FOR SALE,

The Business of

W. A. IVES & CO.

Owing to the death of Mr. Ives, who had no partner, his executors offer for sale the above long-established and profitable business.

The factory is situated four miles from New Haven, Conn., where Mr. Ives lived, and the drive is exceptionally agreeable. The property includes two factory buildings and machinery, a large tenement and a good cottage, good water power, steam engine, and the stock finished and in course of manufacture of augers, bits, braces, and kindred tools, many of them patented, and the good will. The works are running full force and time, and are so organized that experience is not essential to a purchaser. Many of the employees own their dwellings, near the factory, and most of them have been connected with it for many years.

Address CHARLES HOLT, Executor, 29 West Twenty-third Street, New York.

$20,000 to $25,000

could be profitably employed in an Iron Manufacturing Business, that has yielded large returns for upwards of a quarter of a century.

Would take either an active or a silent partner.

Full particulars on application.

POTTSVILLE IRON & STEEL CO.,
Pottsville, Penn.

TO LET.

Office and Sample Room.
One half of Basement. All of Subcellar
HUMASON & BECKLEY MFG. CO.,
80 Chambers Street, New York

FOR SALE.

A thoroughly well assorted jobbing stock of Shelf Hardware, situated in one of the foremost Missouri River cities. Do an annual business of from $300,000 to $400,000 and will increase each year. Jobbing trade alone of the city for 1887 exceeded $10,000,000. Building now occupied is one of the best arranged and equipped for the easy handling of goods in the West. Can give purchaser lease for three to five years at a very reasonable rent. The city enjoys as favorable seabord and distributing freight rates as any in the West. Territory tributary to the city makes volume of business limited only by capital employed. Sellers do not care to dispose of stock before January 1st, 1889, and by that time can reduce same to between $50,000 to $60,000. The business has always been and is now profitable, and sellers will show the very best of reasons for disposing of stock and good will. Such an opportunity rarely presents itself for purchase of a well-established and profitable jobbing business. For further and more detailed particulars, apply to or address

WM. B. FOX & BRO.,
No. 97 Chambers St., New York, N. Y.

FOR SALE.—A good, clean stock of HEAVY AND SHELF HARDWARE Stoves, Tinners' Stock Tools, &c., in one of the best towns in Iowa; 2500 inhabitants. Three railroads; end of division of one. Business established 20 years best corner location in town. Store, 22 x 85, two stories Warehouse, 22 x 30, two stories in rear. Does a large and paying business which is increasing; fine point for jobbing. Stock will invoice from $10,000 to $12,000. No trade.

Address

W. L. HAY & SON,
Iowa Falls, Iowa

FOR SALE, IN CENTRAL CALIFORNIA.—Intending to retire from active business, I offer for sale my clean and desirable stock of Hardware, Agricultural Implements, Paints, Oils, &c., &c. The business is now and has been a profitable success for more than 20 years. It is located in the delightful climate of Santa Clara County, Cal., which for health, school and social advantages is unequalled in the United States. $10,000 to $12,000 capital required. For further particulars, address "CALIFORNIA," office of *The Iron Age*, 66-68 Duane St., New York.

FOR SALE.—Hardware Store in town of 1000 inhabitants, doing good business; $2500 stock. Good reason for selling.

Spons' Architect and Builder's Price Book (English prices). With useful memoranda and prices. Fifteenth edition. 310 pages, 12mo, cloth. $1.50

Electrical Distribution by Alternating Currents and Transformers. By R. KENNEDY.....$0.80

Elementary Introduction to Chemical Theory Together with selected problems. 8vo, cloth. By H. MACAN.....$0.40

The Culture and Manufacture of Indigo: With a Description of a Planter's Life and Resources. Illustrated. 165 pages, crown 8vo. By W. M. REID.....$3.00

A Manual of Practical Assaying. By JOHN MITCHELL. Edited by WM. CROOKES, F. R. S., &c. Sixth edition, partly re-written and considerably enlarged. Illustrated by 201 fine wood cuts Nearly 1000 pages. 8vo, cloth.....$10.00

The Gas Engineer's Chemical Manual. Second edition. Revised and enlarged. 12mo, cloth. By J. A. WANKLYN.....$2.00

The Manual Training School. Its Aims, Methods and Results, with detailed courses of instruction in Shopwork and Drawing. Illustrated. By PROF. C. M. WOODWARD.....$2.00

Mineral Physiology and Physiography; or Geological and Mineralogical Studies, with a general introduction. By PROF. T. STERRY HUNT...$5.00

Handbook of Modern Chemistry, Inorganic and Organic. Second edition, revised. London. By C. M. TIDY.....$5.50

Telegraphic Mining Code, Alphabetically Arranged. For the use of Mining Companies, Mining Engineers, and all persons interested in Mines. 349 pages, 8vo. By C. ALGERON MOREING. Cloth $4.25; Interleaved, $6.25.

Detail and Ornament of the Italian Renaissance. Folio. By G. J. OAKESHOTT.....$12.00

Electricity and Magnetism. A short text-book, with 165 explanatory engravings and diagrams. 240 pages, 12mo. By T. DUNMAN.....$0.40

An Elementary Course in Descriptive Geometry. By SOLOMON WOOLF, Professor of Descriptive Geometry and Drawing in the College of the City of New York. Illustrated by nearly 300 fine diagrams. 8vo, cloth.....$3.00

Inorganic Chemistry, Theoretical and Practical, with an introduction to the principles of chemical analysis, inorganic and organic. Ninth edition, rewritten and enlarged. 12mo, cloth. By W. JAGO.....$0.80

All Matter Tends to Rotation: or, The Ultimate Source of all Motion. Vol. I, 8vo, cloth, By L. L. C. HAMILTON.....$3.00

Elements of Dynamics. (Kenetics and Statics.) 12mo, cloth. By J. L. ROBINSON.....$2.50

Stair Building in its Various Forms, and The One Plane Method of Hand Railing as applied to drawing Face Moulds, unfolding the Center Line of Wreaths, and giving lengths of Balusters under all Wreaths. Numerous Designs and Plans of Stairs, Newels and Balusters for the use of Architects, Stair Builders and Carpenters. By JAMES H. MONCKTON. Illustrated by 78 full-page plates of Working Drawings. 4to.....$6.00

Elementary Text Books of Practical Metallurgy. 128 pages, 12mo. By A. R. Gower.....$1.20

Some Details of Water-Works Construction. Illustrated, 8vo, cloth. By W. R. Billings...$2.00

Numerical Examples in Practical Mechanics and Machine Design. By R. G. BLAINE, with Introduction by Prof. John Perry. 12mo, Cloth $1.00

Annual Statistical Report of the Secretary to the Members of the British Iron Trade Association on the home and foreign iron and steel industries in 1887. By J. S. JEANS. 117 pages, 8vo, paper.$2.00

Practical Treatise on the Teeth of Wheels, with the theory and the use of Robinson's odontograph. Second Edition, Revised. By S. W. ROBINSON, 162 pages. 8. bds.....$0.50

Astronomy for Amateurs. A practical manual of Telescopic Research in all latitudes adapted to the powers of moderate instruments. Illustrated. By J. A. W. OLIVER.....$2.25

Practical and Analytical Chemistry. Third edition, revised, enlarged and illustrated. By J. MUTER.....$2.00

Some Details of Water Works Construction. By WM. R. BILLINGS.....$2.00

Rural Water Supply, being a collection of short articles and letters contributed to scientific journals and intended for the use of those who have not the leisure to study more elaborate treatises. By CHARLES L. HETT, A.M.I.C.E. 8vo, paper.$0.75

Telegraph Engineers' Journal. Journal of the Society of Telegraph Engineers. No. 74. 177 pages, with illustrations. 8vo, paper.....$1.60

Practical Treatise on Animal and Vegetable Fats and Oils; comprising both fixed and volatile oils. Edited chiefly from the German of Drs. Schaedler, Askinson and Brunner; with additions and lists of American patents, &c. With illustrations. By W. T. BRANNT.....$7.50

The Principles of Dynamo-Electric Machines. Giving practical directions for designing and constructing Dynamos. Cloth, 279 pages, 59 Illustrations. By CARL HERING.....$2.50

Home Experiments in Science for Old and Young. A repertory of simple experiments with home-made apparatus. Illustrated. By T. O'CONNOR SLOANE.....$1.50

Coal Tar and Ammonia; being the second and enlarged edition of a Treatise on the Distillation of Coal Tar and Ammoniacal Liquor. 756 pages, cloth. By G. LUNGE.....$12.50

Civil and Mechanical Engineering popularly and socially considered. By J. W. C. HALDANE..$4.50

Flour Manufacture; a Treatise on Milling, Science and Practice. Translated from the second enlarged and revised edition, with supplement, by H. H. Powles. 24 plates and 113 engravings. By F. KICK, London.....$10.00

A New Basis for Chemistry. By THOMAS STERRY HUNT.....$2.00

Principles of Dynamo-Electric Machines and practical directions for designing and constructing dynamos. With an appendix containing several articles on allied subjects, and a table of equivalents of units of measurement. 279 pages, with engravings. 12mo cloth. By CARL HERING, $2.50

Coffee: its Culture and Commerce in all countries. Embracing the experience of cultivators in all parts of the world adapted to the crop. 264 pages with illustrations; 8vo, cloth. By C. G. W. LOCK..$4.00

Tables of the Properties of Saturated Steam and Other Vapors. By CECIL H. PEABODY, Assistant Professor of Steam Engineering, Mass. Institute of Technology. 8vo, cloth.....$1.00

Electricity and Magnetism. Vol. 2. Methods of Measurement and Applications. 8vo, cloth. By MASCART and JOUBERT.....$7.50

Journal of the Iron and Steel Institute, No. 2, 1887. Synopsis of Contents: The Metallurgical and Mechanical Exhibits at the Manchester Royal Jubilee Exhibition, by Thomas Ashbury. The Reduction of Ores of Iron in the Blast Furnace, by Sir Lowthian Bell. Notes on the Basic Open-Hearth Process, by J. W. Wailes. Electric Lighting in Works and Factories, by Prof. J. A. Fleming. Appendix. Notes on the Progress of the Home and Foreign Iron and Steel Industries. Statistics. Comparative Tables. Bibliography.....$6.00

Journal of the Society of Telegraph Engineers and Electricians. No. 72. With Papers on—The present state of Fire Telegraphy, by R. von Fischer Truenfeld. Electrical Stress, by Prof. A. W. Rucker Abstracts, etc. 90 pages, with illustrations. 8 vo, paper.....$1.00

Watts' Dictionary of Chemistry. Revised and entirely rewritten. By W. F. Moreley and M. M. Pattison Muir. Assisted by eminent contributors. In four volumes. Vol I. 752 pages. 8vo, half morocco. By HY. WATTS.....$14.50

Text Book of Physics. Treating of Mechanics and Heat, Electricity and Magnetism, Acoustics and Optics. Adapted for Colleges, Technical Schools and Seminaries. Fully illustrated. By PROF. W. A. ANTHONY, of Cornell University and C. F. BRACKETT, of Princeton University, $4.00

Steam Boilers. A practical treatise on boiler construction and examination. For the use of practical boiler makers, boiler users and inspectors. 73 engravings, 250 pages, 8vo, cloth. By JOSHUA ROSE.....$2.50

American Street Railways: Their Construction Equipment and Maintenance. Containing over 200 pages of text, illustrated with cuts and detail plans of stables, car houses, track work, etc. 12mo, bound in leather. By A. W. WRIGHT.....$5.00

The Fundamental Principles of Chemistry practically taught by a new method. With 71 woodcuts and numerous exercises and answers. 12mo, cloth. By ROBT. GALLOWAY.....$1.75

Silk: Its Entomology, History and Manufacture, exemplified at the Royal Jubilee Exhibition, Manchester, 1887. By THOS. WARDLE. Illustrated. 238 pages, 8 vo.....$2.00

The Mechanician: A Treatise on the Construction and Manipulation of Tools, for the use and instruction of young engineers and scientific amateurs. Fourth edition, 4to, cloth. By C. KNIGHT. $7.25

The Trees of Commerce. By W. STEVENSON. 228 pages, 8vo.....$1.40

Asbestos: Its Production and Use. With some account of the asbestos mines of Canada. 76 pages, 8vo, paper. By R. H. JONES.....$0.40

Short Lectures to Electrical Artisans. Second edition. By J. A. FLEMING. Illustrated, crown 8vo, cloth.....$1.50

Practical Notes on Pipe Founding. With 15 folding plates. 8vo, cloth. By JAS. W. MACFARLANE.....$4.00

Dynamo Tenders' Hand-Book. Showing how to operate and care for electric light installations. 100 pages, with 70 illustrations. 18mo, cloth. By F. B. BADT.....$1.00

Tables of Squares, intended more especially for the use of Bridge Builders. Containing the square of every foot, inch, and sixteenth of an inch between one-sixteenth of an inch and fifty feet. By E. E. BUCHANAN, 12mo, cloth.....$2.00

Pederson's Patent Ratchet Brace.

We have received orders so far ahead of our highest expectations (especially for the Pederson Ratchet Brace) that we have no doubt unavoidably caused many of our patrons serious inconvenience by being unable to give them the prompt attention we so much wish to bestow. We have, however, this week purchased several duplicate machines, which will now give us an enormous producing capacity, and enable us very soon to complete all of our orders. We trust that those who have kindly favored us with their patronage will bear with us a little while longer; and we can assure them that they will be abundantly paid for waiting. As we expect, from every indication, to be crowded to our utmost for months to come, we solicit orders *in advance*, which, of course, will receive first attention, at the time desired.

We are, very respectfully,

Sept. 1st, 1888. AMERICAN BIT BRACE COMPANY.

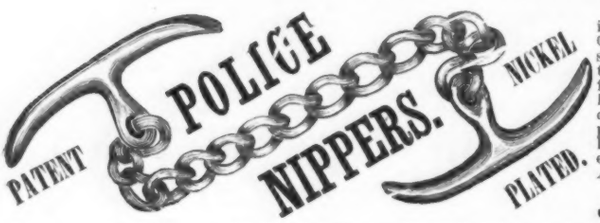
POLICE CHAIN TWISTERS OR NIPPERS.

Under Patent granted to A. P. Baldwin, July 7, 1874.



The attention of the Hardware Trade is called to the decision rendered in my favor in U. S. Circuit Court, So Dist. of N. Y., Baldwin *vs* J. G. Conway Co., Limited, *et als.*, wherein I prosecuted the defendants for selling Police Chain Twisters or Nippers, manufactured by Bean, of Boston, which are proved to be an infringement on my patent. We therefore warn the Trade and public generally against selling or using such Police Chain Nippers or Twisters, or any others made in accordance with our invention, except those made by Jos. Baldwin & Co., and the improved patterns made by us exclusively for Tower & Lyon, N. Y., who have always respected our claims, and by whom our Police Chain Twisters are kept for sale All such are stamped with our name or initials. All others are infringements.

FOREHAND & WADSWORTH'S

New Model Automatic Shell-Extracting Revolver

32 and 38-100 Center Fire.

We claim for this Pistol some important advantages over other makes of pistols of this kind. It has REBOUNDING LOCK, which obviates all liability of accidental discharge when closing the arm after charging the cylinder, a very important feature in an arm of this kind. It has a very simple and superior method of holding the cylinder to the barrel, which can be removed instantly by pressing a CATCH in front of the CYLINDER. The workmanship on this arm is very superior. All the parts are INTERCHANGEABLE, and are made from Drop Forgings. The frame s of Cast Steel—no Malleable Iron about it.

FOREHAND & WADSWORTH,

Worcester, Mass, U. S. A.

Sold by all Dealers in Arms generally throughout the United States.

LOVELL'S Hammerless, Automatic Shell-Ejecting REVOLVER.

38 Cal.
Using 38 S. & W. Central Fire Cartridge.

RETAIL PRICE, $10.00.

This Revolver has many improvements not to be found in any other make, including *Improved Automatic Shell Ejector, Rebounding Lock.* Improved method of instantly removing the Cylinder, and the *Safety Attachment* in forward part of Trigger which renders accidental discharges *absolutely impossible. It is the Safest Revolver Made.* Descriptive Circular and Prices to the Trade Furnished on Application.

V. R.

PETER WRIGHT'S

SOLID WROUGHT

ANVIL

Made of Best Scrap Iron!

THE BICK FACE AND END ALL IN ONE SOLID PIECE!

The high reputation attained by these Anvils has led makers of an inferior anvil to imitate the brand, with the view of thereby more readily marketing their goods. The trade is cautioned in buying to see that each anvil is stamped with the full trade mark on one side and has the green label affixed to the other; fac-similes of both are shown above.

Cronk's Patent Wire Cutter and Bender.

8 in. per doz. pair, - - - - - - - - - $15.00
10 in. " " - - - - - - - - - - 21.00

This surpasses any Plier in the market for Cutting and Bending Wire, and can also be used in place of Hill's Hog Ringer. Is especially adapted to farmers' use in building Wire Fence, &c.

Our reasons for claiming that we have the best Pliers in the Market are :

FIRST.—We use the best Tool Steel and they are nicely finished.

SECOND.—We combine both Flat and Round Nosed Pliers in one, the concave and convex circles between the handles are used for bending wire in any desired shape.

THIRD.—The cupping in the Nose is used for pulling tacks, Brads or nails, and can also be used in place of Hill's Hog Ringer.

FOURTH.—We can cut Barb Wire, Barb Belt or any kind of Wire used for Fencing purposes. We also claim that we have the only Plier made that the Cutting Jaws cannot be broken.

By passing the Wire through the Pliers it makes a very handy cut and also holds the Wire after it is cut.

THE SWIFT MILL.

ESTABLISHED 1845.

The annexed cut shows one of the many styles of Coffee Mills of our manufacture, especially adapted to Grocers' use and all retailers of coffee. They are highly ornamental, and workmanship of the very best. We make more than 30 styles.

Lane's Measuring Faucet.

LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made ofsteel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

TOWER & LYON, GENERAL AGENTS, 95 CHAMBERS STREET, NEW YORK.

WIGGER'S

PATENT SASH LIFTERS

A simple contrivance designed to facilitate the Raising and Lowering of

ONE-LIGHT SASHES.

Nearly all modern buildings are constructed with single-light sashes, the raising and lowering of which is attended with difficulty.

The adjustment of the lower sash is especially inconvenient when screens are used.

These Sash Lifters will be found indispensable in overcoming this constant annoyance.

Latching is facilitated, window sticks and hooks done away with, springing the sash and loosening the glass prevented, &c.

Made of a strip of concave-convex metal, with knobs pressed up, and fitting over the bead on the side rail of sashes.

Made in any size from 28 to 44 inches in length.

Sample Cards, Price Lists and Circulars on Application.

THE STRONGEST GLUE IN THE WORLD.

2 GOLD MEDALS AWARDED LONDON 1883. NEW ORLEANS 1885.

RUSSIA CEMENT CO. Gloucester, Mass.

SOMETHING NEW

THE PATENT ADJUSTABLE BRUSH.

Our new Patent Can can be carried in the pocket and used without danger of soiling from the can or brush; all superfluous glue is removed on wiper. This style is made in three sizes, half pint, gill and half gill. Our regular cans are half pint, pint, quart, two quart and gallon. Bottles, two sizes as heretofore.

At the New Orleans Exposition (where a Gold Medal was awarded) a piece of Georgia pine butted, one inch square, on a Testing Machine, registered 1620 lbs. before parting.

Does not set quickly like the old style Glues, and has FOUR TIMES the strength.

No Heating required.

No other Glues have the RECORD of 1620 lbs. to the square inch.

The fact that the sales of

LEPAGE'S THE ONLY GENUINE LIQUID GLUE

has greatly increased during the past year, so that we have been unable to manufacture the goods as fast as called for is the best proof that the public appreciates A GOOD THING.

To meet this demand we have recently greatly increased the capacity of our works, and have now the most scientifically arranged glue plant in the world, no expense having been spared which would in any way contribute toward the ABSOLUTE PERFECTION of the products.

THE WIDE AWAKE DEALER is not slow to see that it pays him to keep in stock those goods which are sure of QUICK SALES. Don't be cajoled into buying the various Liquid Glues now in the market for which claims are made that cannot be substantiated.

That the Dealer and Public may be sure that they are not deceived in making their purchases we have commenced putting the autograph below on all the Genuine LePage Glues.

Russia Cement Co.
GLOUCESTER, MASS.

These Glues are used in the Smithsonian Institute, at Washington for all its works of mounting specimens, by the Government Arsenals and Department Buildings, by the Pullman Palace Car Co., Mason & Hamlin Organ and Piano Co., and by thousands of first-class manufacturers and mechanics throughout the world, for all kinds of fine work.

MANUFACTURED ONLY BY THE

STAR ❋ BRAND ❋ TACKLE ❋ BLOCKS,

For Railways, For Contractors, For Bridge Builders and General Trade.

We would particularly call attention to our

Self-Adjusting Five Roll Roller Bush Blocks

which for strength and durability cannot be equalled by any other make. These Roller Bushed Blocks *give twice the purchase* of the Iron Bushed Blocks, and are far more preferable to use on account of greater ease in hoisting. Try them and find out for yourselves. Call for the "Star Brand" SELF-ADJUSTING FIVE ROLL ROLLER BUSH BLOCKS.

Coes Wrench Co.,
WORCESTER MASS.,
MANUFACTURERS OF
A. G. COES'
PATENT
SCREW WRENCHES,

The Strongest Wrench made, and the only successful re-enforced bar.

The Ferrule is firmly secured in place by a nut screwed on the bar.

Particular attention is called to the way in which the handle is made and fastened to the shank.

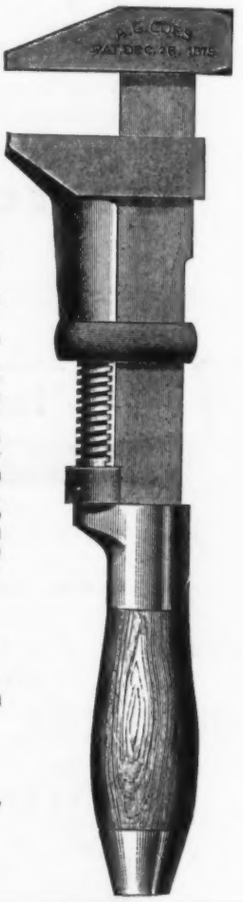
This Handle is made better and stronger than heretofore by using our new Cup Tip at the end which encloses the wood and keeps it from splitting. This is the only wrench which has the wood handle firmly secured and held together at each end, and it will stand more rough usage and last longer thar any now made. It is not affected heat, cold or moisture.

None Genuine unless Stamped,

A. G. COES & CO.

Warehouse:
113 Chambers
and 95 Reade Sts.,
NEW YORK.

JOHN H. GRAHAM & CO., Agts.



Bemis & Call Hardware & Tool Co.

PATENT COMBINATION WRENCH.
Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PATENT PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the wrench was new.

For Circulars and Price List, address

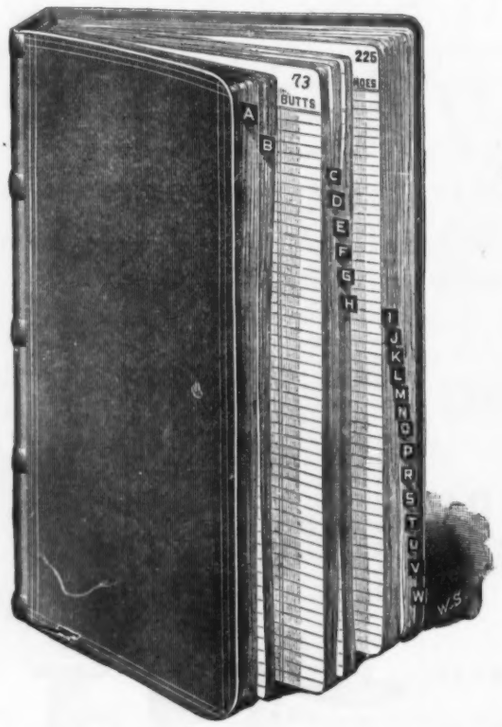
LAMBERSON'S
HARDWARE PRICE BOOKS.



POCKET EDITION,

4 x 7 inches, 250 pages.

BOUND IN LEATHER.

PRICE, · $4.00.

LARGE SIZE,

FOR

OFFICE USE.

6 x 9½ inches, 500 pages.

BOUND IN LEATHER,

PRICE, · $8.00.

THE illustration serves to show the general appearance of the Large Price Book. Dealers who have copies of the first edition will observe that the old classification is abandoned and the alphabetical arrangement adopted in its place. The names of different articles are printed at the upper corner of each page. The index cut on the front edge of the book gives a ready reference to the beginning of each letter, and by turning the corners of the pages any item desired in that division can be very quickly found.

On the first page opened to by the index letter will be found a list of articles beginning with that particular letter, arranged with two spaces after each item for additions of other goods in proper alphabetical order.

Sizes of leading lines are printed, and in case of Rules and Planes comparative numbers are given. Lists are omitted for the obvious reason that they are liable to change, but forms are arranged so that lists may be added with pencil. Useful tables are inserted on Strap Hinges, Nuts, Washers, Wire, Rivets, Stocks and Dies, Rope and Nails. The book is intended primarily for ***Salesmen,*** but it is no less useful to ***Buyers*** or ***Stock*** and ***Entry Clerks,*** and can be adapted to any purpose for which a price book may be desired. The general plan of the Pocket Edition is the same as in the large book, but the ruling and printing are on a smaller scale. The book is small enough to be carried in the pocket without inconvenience, but the arrangement is so perfect that it will cover a very complete line of hardware.

Sent, Charges Prepaid, on Receipt of the Price by

Bradley's HEATING FORGES

Established 1832

Pat. Aug. 30, 1887

With a manufacturing experience of over half a century, we recommend these machines to be the best, simplest, most durable and combining all the essential elements.

For hard coal or coke. Indispensable in all shops to keep **Bradley's Cushioned Hammers** and men fully employed and reduces cost of production.

BRADLEY & CO., Syracuse, N. Y.

BRADLEY'S UPRIGHT CUSHIONED HELVE HAMMER

Combines all the best elements essential in a first-class Hammer. Has more good points, does more and better work and costs less for repairs than

...y other **Hammer** in the **World.**

BRADLEY & CO. Syracuse, N.Y.

GATE CITY STONE FILTER CO.,

46 Murray St., New York.

☞ Fine China and Gray Stone-ware Jars to hold the Water.

☞ A NATURAL STONE for a Filtering Medium.

☞ Fitted with separate Patent Ice Chambers to cool the water.

☞ As easily cleaned as a Water Pitcher.

☞ No objectionable material used in the construction of this Filter

All water is filled with impurities during the rainy season

☞ This Filter will ABSOLUTELY CLEAN IT

Address as above for Descriptive Price List. Mention *The Iron Age.*

Open Cut shows Filter Disc used in our Filters, and Separate Patent Ice Chamber.

STANDARD BOOKS,

Metal-Plate Work: Its Patterns and their Geometry. Also notes on Metals and Rules in Mensuration, for the Use of Tin, Iron, and Zinc-Plate Workers, Coppersmiths, Boiler Makers and others. 311 pages, with illustrations, 8vo, cloth. By C. T. MILLIS.....$3.00

Stanley's Adjustable Chisel Gauge.

A principal use of this simple devise will be found in finishing work, where Blind-Nailing is required. It can also be used for inlaying wood strips in ornamental surface work.

By attaching the Gauge to a ¼ inch Chisel (with beveled edge up) a shaving of any thickness can be raised with precision; and when glued down again, this shaving will fit its recess perfectly.

No. 96. Chisel Gauge, Steel Stock,..... .....$0 20
